EUROPE URGED TO STORE OIL TO STORE OIL

Dr. Egloff of Chicago Talks at Power Conference

Declares Cracking Process Ended Shortage Fear

Believes France Should Have Five-Year Reservoir

LONDON, Sept. 25. (Exclusive).—All fears that the oil and gasoline supply will give out in the near future were dispelled by the introduction of the cracking process, Dr. Gustave Egloff of Universal Oil Products Company of Chicago, told the World Power Conference here today.

The cracking process greatly adds to the amount of gasoline that may be extracted from crude oil and its application to oil produced by known coal areas would guarantee the world a sufficient gasoline supply for more than 2500 years, he asserted.

SUGGESTS STORAGE

Dr. Egloff offered a suggestion to France, Italy, Germany, England and other countries not possessing an oil supply, to secure necessary fuel in case of emergency. He suggested that these countries build tremendous underground reservoirs holding 1,000,000 to 5,000,000 barrels of fuel oil. At a time of national emergency or war, instead of being obliged to enter a high-price market during national stress the gasoline would be extracted from the fuel oil by the cracking process. Fuel oil is relatively low in price, does not deteriorate, does not evaporate and is relatively nonflammable.

Building huge reservoirs capable of fulfilling a nation's needs for several years would be perfectly feasible, he said. The oil would be cracked into gasoline as required, leaving the rest of the oil conveniently and safely stored until it was wanted.

WOULD RELEASE CAPITAL

"A country the size of France which consumes about 400,000,000 gallons of gasoline a year, could accumulate over a period of time 100,000,000 barrels of fuel oil," Dr. Egloff said. "This would furnish by cracking, 50,000,000 barrels, or 2,100,000,000 gallons of gasoline sufficient for 31,500,000 car miles, or five years, the peace-time supply, and probably sufficient requirements for national defense."

If the foreign nations would store large quantities of fuel oil the United States would be relieved of a considerable burden, he continued. More than 600,000,000 barrels of oil stored in the United States are worth with the storage tanks more than \$1,000,000,000.

If the foreign nations followed Dr. Egloff's suggestion about 400,000,000 in capital thus tied up would be released.

ISOBEL STONE TO MARRY POET

Former Governor's Daughter Finds Romance

With Sister She Quit Society for Artistic Career

Lived in Poverty on Barge; Scorned Riches

NEW YORK, Sept. 25. (AP)—Isobel Stone, daughter of the late William A. Stone, one-time Governor of Pennsylvania, who was found last summer living with her sister on an abandoned barge in Sherman Creek, is to marry Henry Harrison, poet and publisher. Announcement of the engagement was made by Miss Stone from the office of her fiancé here.

Discovery of the two girls, who gave up society for artistic careers, living in poverty created quite a stir at the time. Their father had been considered a wealthy man and it was believed he had left a large estate. Their plight was blamed by relatives on their "strongheadedness" in insisting on artistic careers.

Miss Stone revealed that she met her future husband through her writing. He accepted some poems she had written and then, as she expressed it, she accepted him as her future husband.

No date has been set for the wedding, but when they are married, Miss Stone says, it will be no "ultra-modern Greenwich Village affair." They will live in the village, however, in a house Miss Stone recently acquired.

Both Miss Stone and Mr. Harrison are 25 years of age. He was formerly editor of the Greenwich Village "Quill" and now edits and publishes annually "The Grub Street Book of Verse."

Miss Stone is a former opera singer, having appeared with the San Carlo Opera Company, and she also has appeared in several Broadway productions. She resides with her sister, Peggy O'Neill, a sculptor, in Greenwich Village.

Arizona Pioneer Dies Suddenly

MIAMI (Ariz.) Sept. 25. (AP)—James Green, 60 years of age, pioneer citizen of the Miami-Globe mining district, was found dead in a local rooming-house this morning, apparently the victim of heart disease.

Green had not been seen by friends since Sunday afternoon, when he did not appear for his meals. Monday, an inquiry was made at his place of abode. The proprietor glanced into his room and believed Green to be sleeping. It was not until today that an investigation revealed his death.

A TOP SERGEANT COULDN'T BE A BIGGER FAULT FINDER THAN A HART SCHAFFNER & MARX CLOTHES EXAMINER

We hope they'll never see this because they're chosen for their ability to find fault

They look at every Hart Schaffner & Marx garment that comes out of a shop

They see it on a living model

And they're paid for how much wrong they can find

Maybe a button hole isn't just right—back the suit goes

Maybe the collar isn't worked in just right—back again

These examiners catch many a slight fault you'd never find—but we don't intend that you shall ever be disappointed in our clothes

THAT'S ONE REASON WHY WE CAN SAY SATISFACTION OR MONEY BACK

Copyright 1928 Hart Schaffner & Marx

"RUST RESISTANT" does not mean RUST-PROOF

If you are planning to build, buy or remodel a home it is vital to you to know the distinction between metals that simply resist rust and a metal that is rust-proof.

This difference is clearly shown in the following excerpt from a recent bulletin of the **United States Bureau of Standards**

FERROUS METALS WILL RUST

"All the common ferrous... materials will rust on exposure to air and moisture or water which has not been completely freed of its dissolved air. Under different conditions some... will rust less than others but all will rust."

NON-FERROUS METALS CANNOT RUST

Copper, Brass and Bronze are non-ferrous metals and CANNOT RUST. They will withstand the attack of time and the elements. Neither rain, nor snow, nor fog, nor sun can destroy them.

Insist on Copper for flashings, gutters and downspouts; Brass pipe for plumbing and solid Brass or Bronze for hardware and lighting fixtures. These materials will last as long as your house stands. They will not necessitate costly repairs or replacements.

Our Building Service Department will gladly assist you without cost or obligation if you are confronted with any problem requiring the use of our metals.

Gilfillan Radio

Famed for
Tone and
Beauty
See it!

Richest
Tone in
Radio
Hear it!

NEW realms of enjoyment and Tone Beauty come from these models. No other Radio even approaches its natural, rich quality; because more Overtones are reproduced. Overtones give brilliancy and realism. Not only can individual orchestral instruments be distinguished but intimate qualities of a voice are distinctly heard, with low or high volume. This Tone Superiority is due to many important and exclusive Gilfillan features; 'Uniform Audio Amplification' gives wider tone range. The 'Electric Wave Filter' gives sharper selectivity. The 'Push-Pull Amplification' gives greater purity and clarity of tone. A Compensating Device prevents overloading and injury of tubes from current fluctuation. The Volume Control is instantly responsive. The famous Jensen Dynamic Speakers are installed. All models equipped so that phonograph records may be played through them. Nowhere will you find such captivating beauty in design and finish of cabinets together with such durable and advanced construction. By all means hear this finest and most complete Radio before buying.

Above is our Model 44—A beautiful console type. Complete with tubes for \$388.

Manufactured under license of R.C.A., Latour and Hazeltine Patents
GILFILLAN BROS., INC., 1815 Venice Blvd., Los Angeles.

This magnificent Model No. 77 is a combination Phonograph and Radio, interchangeable by simply turning switch. One dial tuning, 7 tubes and AC operated. Its hand-built steel and aluminum chassis has all the latest advanced features, with the best electric record, pick-up and motor driven phonograph, with volume control. Be sure and hear this wonderful instrument. Its performance is in an entirely higher class than any we have ever heard. Complete with tubes \$490.

LEAGUE FORMED
TO AID FARMERWill Work for Increase of
Protective TariffState Developers Convene
Bay City SessionHome-Market Support Goal
to be Sought

SAN FRANCISCO, Sept. 25. (Exclusive)—Farmers, breeders, shippers, packers, exporters, and representatives of co-operative organizations from all parts of the State, meeting here today at the call of the California Development Association, perfected an organization which will seek to better the financial status of the agriculturist in whatever method is deemed practicable.

First definite action was adoption of a resolution, self-explanatory, which reads in part:

"With the exception of a number of agricultural products which enjoy high protective duties, other lines of agriculture are in difficulty. With protection extended to industry through high tariffs on manufactured goods, to labor by restriction of immigration, and to a number of agricultural products, we hold that all agricultural products should be equally protected and in the same degree, in order to give the home market to all American farmers, including California.

PROTECT HOME MARKET
"The American market is invaded by tropical and other farm products, many of which are substitutes for American products. We hold that the home market should be protected not only against identical products such as are grown in this country, but against the substitutes. We agree to urge and support Congressional action and administrative

JERUSALEM SECTS CLASH

Devout at Wailing Wall Angered at Rabbinical
Screen's Removal on Plea of Moslem

JERUSALEM, Sept. 25. (AP)—Disturbances somewhat similar to those which took place three years ago marked yesterday's observance of the Day of Atonement at the famous Wailing Wall, the holy place in the world of Jewry and the only remains of Solomon's Temple.

While hundreds were engaged in prayer, a troop of Anglo-Arab police appeared and ordered the removal of a screen set up to separate men and women, according to religious law. On the people refusing, the police belabored the devout and dragged several along the ground.

Col. Kish, Zionist executive who was present at the wall, took up the matter with the Governor of Jerusalem without getting what he

leadership toward obtaining the benefits of tariff protection to all American farm products, regardless of commodity.

Several other specific questions on the program caused considerable discussion, but without resulting in definite action at this time. Among them were the possibility of California farmers adopting a uniform tariff policy and taking steps to extend its provisions throughout the nation, providing it did not interfere with existing or proposed national legislation, such as the McNary-Haugen bill—or, to be more exact, whatever measure succeeds the present McNary-Haugen bill.

STATE AID PROPOSED
Another matter discussed was the advisability of disregarding foreign production costs in fixing a duty and another the advisability of asking for a State appropriation to finance the gathering of data upon which constructive legislation might be based.

Opinion generally was that an upward revision of the tariffs on agricultural products is not only to be sought, but is an essential to the future well being of those who make their living from the soil. The opinion also was expressed that whatever action is deemed advisable should be whipped into shape

for the next Congress so it can be made effective shortly after the inauguration of the next President, March 4, 1939.

DISCRETION URGED
Dwight Grady, manager of the dried-fruit association, appealed for reasonable discretion in urging a general rise in tariffs, explaining that 65 per cent of all deciduous fruits raised in this State, with the exception of juice grapes, are exported. Too severe measures may bring retaliation from foreign markets, he said.

Those named to the committee to consider ways and means of additional protection are C. C. Teague, Santa Paula, chairman; A. C. Harwood, Santa Paula, representing walnut and citrus growers; A. A. Colusa, president of the California Farm Bureau Federation; E. S. Knight, Petaluma, representing the Sonoma Orange, Farmer's Union; and Poultry Keeper's Association; T. H. Ramsey, Red Bluff, live-stock industry; C. D. Hamilton, Sanning, president of the California Almond Growers' Association.

AIR COMPANY FILES ARTICLES

JUNKERS START
ON HUGE PLANEAir Mammoth Will Have
158-Foot SpreadCraft to be Equipped With
Four Large MotorsWill Carry Fifty Passengers
in Wing Cabins

(Copyright, 1933, by the Chicago Tribune)
BERLIN, Sept. 25. (Exclusive)—The Junkers have started building the world's largest airplane. It will have a 157.73-foot wing spread and 75.45 feet long, with four motors aggregating 3000 horsepower and accommodations for fifty passengers, mostly in cabins built within the wings.

Air progress in Germany resolved itself into an apparent contest between the Junkers, Dornier, Rohrbach and Zeppelin interests. The first make airplanes, the second and third seaplanes, and the fourth ships, but the contest is more apparent than real, since the experiments are going on along parallel lines as if animated by a common purpose directed toward national ends.

Lufthansa, Germany's big passenger air concern, suffered a severe loss today when one of its largest planes, the Deutschland, was forced down in Arnesburg on a Paris-Berlin flight. The eight passengers and crew of four hardly had time to climb out when the plane burst into flames. It was a Junkers all-metal sister ship to the Herman Goel, running on the nonstop De Luxe Paris-Berlin line. It carried fifteen passengers and boasted a restaurant.

The press expresses astonishment at an all-metal plane being able to burn up the same as a wooden craft.

Sweaters with signal stripes of many colors are being worn by women of Europe.

POLICE JAILED
IN QUAKER CITYTwenty-three Arrested for
Liquor Graft"Little Black Book" Names
Lead to ChargesMajority Confess Being
Members of Ring

PHILADELPHIA, Sept. 25. (Exclusive)—Revealing what Dist. Atty. Monaghan describes as the most malodorous graft situation yet found in the grand jury investigation of Philadelphia's rum ring, twenty-three police officers and men now or formerly connected with the Fourth street and Snyder avenue station were arrested at one swoop at 11:30 p.m. on charges of extortion, bribery and conspiracy.

A police captain, seven sergeants, one district detective, two City Hall detectives and twelve patrolmen whose names were found inscribed in a "little black book" seized in a raid by Federal prohibition agents last week, were picked in a City Hall cell room incommunicado pending their arraignment in the State courts before Judge Lewis tomorrow.

The majority of them, the District Attorney announced, have confessed completely and in detail their culpability in a scheme of grafting which he declares to be "tremendous."

The arrested men include Capt. Charles Cohen, former commander of the south Philadelphia station and now commander of the Twentieth and Berke streets station; District Detective Albert Long, City Hall Detective Thomas Collins and his partner, Thomas Mason.

"The graft in that district was being extorted in almost unbelievable amounts," said Mr. Monaghan. "In one instance, a seventy-five gallon still was forced to pay \$200 a week protection money for three or four months. Capt. Cohen in a very brief period banked \$4000."

Four Priests
Asserted Shot

ROME, Sept. 25. (AP)—The newspaper Osservatore Romano says it has learned that four priests recently were shot in Mexico as part of the "persecution" of the church in that country. The paper says: "We learn from a sure source that four priests in the diocese of Guadalupe recently were shot, the victims of persecution. They were Revs. Corona, vicar of Coquilo; Atlilano Cruz, Miguel Flores and Andrea Galindo. The details are lacking of their 'offenses' and of their execution. It is not the place to talk of justice. That is completely abolished in Mexico."

Only these two companies distribute Genuine Ethyl Gasoline

New-day high compression motors have more
than ever made this anti-knock fuel a necessity

IN 1926, the Ethyl Corporation, with offices in New York City, selected the Associated Oil Company and the Union Oil Company as exclusive distributors of Ethyl gasoline on the Pacific Coast. They alone market the anti-knock fuel built up for high compression motors.

This remarkable fuel has made high compression motors possible. Thousands of motorists are daily turning to Ethyl for positive efficiency in motor performance.

Why Ethyl Means More Power

Beware of
imitations
of ETHYL
GASOLINE

Increasing public acceptance has invited imitations. Be sure your Ethyl gasoline comes from a Union or an Associated pump.

With the combustion chamber in your motor made smaller and the gasoline-air mixture compressed 20 to 40

pounds per square inch more than ever before it is necessary to control the rate at which this mixture burns, in order to give the pistons a smooth, powerful and sustained push on the down stroke. Ethyl in gasoline does this perfectly.

Ethyl... A Scientific Development

Ethyl fluid was developed after 7 years' experiments in the great research laboratories of the General Motors Corporation. Leading automobile engineers and racing men collaborated in this development.

The Ethyl gasoline you use today is not an experiment. It is the proven anti-knock fuel for present-day motors.

From the pumps of these
companies only can you
get genuine Ethyl gasoline on the Pacific Coast

UNION OIL COMPANY

Union Ethyl pumps

"Why I have
prescribed yeast
for 25 years"

by

DR. LEOPOLD MAYER
Belgium's great surgeon

"By reason of its absolute harmlessness, yeast is a remedy of first rank and its wealth of Vitamin B makes it a food of great value. For more than 25 years I have found yeast advantageous in my practice to regulate the digestion of my patients, especially of those affected with chronic intestinal trouble or with biliousness."

Th. Mayer

MANY among the exclusive aristocracy of Belgium are patients of Dr. Leopold Mayer of Brussels. Doctors and surgeons throughout the world know him for his scientific writings.

Like thousands of physicians in America, Dr. Mayer finds constipation one of the great handicaps to health.

For 25 years, Dr. Mayer states, he has given his patients yeast. And, in a recent survey in the United States, half the doctors reporting said they prescribed yeast for constipation and its attendant ills.

This is the welcome answer to all those who still suffer from the headaches, colds, indigestion, bad breath and bad skin due to clogged intestines.

Fleischmann's Yeast is a plant, fresh as any garden vegetable. It helps the colon perform its function almost miraculously. Just eat three cakes a day, one before each meal or between meals. To get full benefit from yeast, you must eat it regularly and over a sufficient period of time. Every grocer and many leading cafeterias, lunch counters and soda fountains have Fleischmann's Yeast. Start today.

State Convention

GOV. SMITH'S TRAIN (En route to Minneapolis) Sept. 25. (AP)—Apparently satisfied with the reaction to his brand of campaigning, Gov. Smith is headed eastward tonight toward the Twin Cities of Minneapolis and St. Paul, the next speech-making stop on his first stump tour.

Behind the Democratic nominee, as he pined deeper into the territory where La Follette showed his greatest strength in the 1924 Presidential race, are Helena, where last night he stayed the Republicans, including Herbert Hoover, on the corruption issue, and Butte, where he received a rousing reception during an hour lay-over this afternoon.

Thursday night Gov. Smith will speak in St. Paul. While no definite announcement of his subject has been made, it is expected he will make a round-up address, touching on agriculture, the tariff and other issues of particular interest to the independent Republican element and farmers of the Northwest.

WET FOR MILWAUKEE
At Milwaukee Saturday night indications are that he will talk on prohibition, a subject many an American voter has been waiting for him to discuss.

From Milwaukee he will return to his home State, going direct to Rochester for the New York State Democratic convention Monday and Tuesday. He will address that meeting and have a hand in the shaping up of the State ticket, then he will return to Albany for a few days before taking the road again.

His itinerary for the next stump tour has not been announced, but it is probable he will make speeches in Chicago, St. Louis, Cleveland, Indianapolis and perhaps several other cities in the Middle West, invade the border States of Kentucky and Tennessee and perhaps make one speech somewhere in the Solid South.

EAST FOR WIND-UP

Toward the end of the campaign, the present plan is to have Gov. Smith concentrate on the East, probably speaking in Baltimore, Philadelphia, Newark, Boston and one or two other cities before winding up his drive for the Presidency in his native city of New York.

Since he left Albany a week ago Sunday night, the Democratic nominee has traveled more than 3000 miles and has delivered four speeches with widespread radio hook-ups. He is convinced that he has his Republican opposition on the defensive and is making "no secret of his intention, as he puts it, of "smoking out" his opponent on various phases of campaign issues. In all of his speeches so far, Smith has centered an attack on Hoover, and there is every indication that he will keep hammering

RADIO GAG ON SMITH DENIED

Democratic Official Himself Declares Helena Speech
Not Intended for West Coast

NEW YORK, Sept. 25. (AP)—The radio bureau of the Democratic National Committee never intended Gov. Smith's speech at Helena to be broadcast on the west coast, Josef Israels of that bureau announced today.

"To have used west coast stations in last night's hook-up," he said, "would have necessitated leasing land wires the cost of which would have been \$4000 an hour. It was not considered that this expense would be warranted to broadcast that particular speech to the West."

Officials of the Columbia broadcast chain, of which Maj. Andrew White is president, said that in accordance with orders from the Democratic National Committee they had employed only their eastern network for the broadcast, consisting of twenty-two stations extending only as far west as Council Bluffs, Iowa.

ACCUSATION MADE
BY LOCAL DEMOCRATS

Charges that "high administration influences were responsible for failure Monday night of Southern Californians to hear Gov. Smith's Teapot Dome speech at Helena, Mont., over the radio were made by P. M. Abbott, manager of the Smith-for-President League of Los Angeles.

The Democratic nominee's talk on away with this line of campaigning.

LEADERS ON TRAIN

As his special train crawled through the mountains from Helena to Butte today the Democratic nominee had as traveling companions Senator Wheeler, Democratic Senator from Montana who is up for re-election; Gov. Erickson; J. Bruce Freeman, National Committeeman for the State; John Evans, Charles P. Nevin, chairman of the Democratic State Committee; Maj. Beadle of Butte, John Lovelace of Bozeman, a Presidential elector, and Dr. T. J. Shanley of Butte, one of the leading champions of the Smith cause in Montana.

Frank W. Johnson, who was a leader in the Smith-for-President movement in the West before the Houston convention and now is in charge of regional campaign headquarters at Salt Lake City, also was on the train. He told the Governor that he is virtually sure to carry Arizona, New Mexico and Colorado, and has a chance in Utah and several other normally Republican States in his territory.

Passage of Navy
Bill Expected

WASHINGTON, Sept. 25. (AP)—President Coolidge is proceeding on the assumption that the pending naval bill authorizing the construction of fifteen cruisers and one airplane carrier will be passed by Congress at the next session.

The bill was approved by the House at the last session, but lost in the Senate legislative jam at the end of the session. Although lacking definite information, the Chief Executive understands that it will be taken up very soon after the convening of Congress and be enacted into law.

MILLS SCORES
SMITH RECORD

Increase in New York State
Expenses Told

Fiscal Policy of Coolidge
Contrasted

Woman Leader Sees Hoover's
Success Vital

WASHINGTON, Sept. 25. (AP)—Ogden L. Mills, Undersecretary of the Treasury, in a radio speech tonight under the auspices of the Republican National Committee on "Economy in Government," again praised the fiscal policy of President Coolidge and criticized that of Gov. Smith, the Democratic Presidential nominee, in New York.

In another radio address under the auspices of the League of Women Voters, Mrs. Raymond Robins of Chicago, national director of the Republican campaign among industrial women, lauded the position of Herbert Hoover, the Republican Presidential candidate, on the solution of the nation's industrial problems. She declared that the higher wages, shorter hours and social gains now enjoyed by the American working man and woman "can be protected only" by Hoover's election.

Mills cited debt reduction as "one of the most direct and effective methods of cutting down expenditures" which had been followed by the present administration.

"The comparison between the record in Washington and the Smith record in Albany is indeed significant," he declared. "From 1921 to 1928 the cost of government in Washington has decreased 38 per cent; from 1919 to 1928 in Albany, it increased 187 per cent; from 1921 to 1928 Federal taxes decreased 31 per cent, and from 1919 to 1928 New York State taxes increased 181 per cent. During these same periods, the national debt was and

is being reduced. The Smith record in Albany is indeed significant."

Impersonator
Comes to Grief

SAN FRANCISCO, Sept. 25. (Exclusive)—Lester Parker successfully posed as the personal physician to Col. Lindbergh while the latter was in Mexico City on his good-will flight and by means of the deception obtained funds from Leon A. Kutner, a San Francisco merchant, subsequently, but he failed to make a success in his effort to escape punishment for impersonating an officer, and two charges of violation of the National Motor Vehicle Act in the court of Federal Judge Kerrigan.

The latter today sentenced the pseudo-physician to three years in Federal prison.

TRAFFIC FAILS
TO STOP BANDITS

SAN FRANCISCO, Sept. 25. (Exclusive)—While scores of other automobiles passed by in a steady stream and not one stopped to give aid, T. W. West, collector for the Pacific States Electric Company, was driven into the curb in the Mission district today by two daylight bandits, who openly brandished pistols, robbed him of \$775 and escaped.

RUM POSSESSOR
GETS LIFE TERM

Michigan Farmer's Fourth
Felony Punished Under
New Criminal Code

IONA (Mich.) Sept. 25.—The Michigan State penitentiary soon will receive another life prisoner, sent up for possessing liquor. Circuit Judge Hawley today pronounced a life sentence under Michigan's new criminal code upon Alonzo Noyes, a farmer.

Sheriff Franch and his deputies raided Noyes's farm on Sunday and found five gallons of moonshine and an unregistered revolver. Noyes was sentenced in 1896 to four years for grand larceny; in January, 1903, to two years for burglary, and in October, 1905, to five years for burglary. The finding of the moonshine constituted his fourth felony.

cut by 27 per cent, and the new debt of New York grew by 48 per cent. Think it over."

Senator Borah just has completed a tour of Kentucky, Tennessee and Oklahoma. Conditions there, he said, are "much better than he expected. He termed the Republican chances for victory in those States as "excellent."

"There is unrest in the South over the prohibition question," the Senator reiterated, "and the reports I have received have been gratifying."

Senator Borah will speak in Convention Hall here tomorrow night.

G.O.P. Chances in States of
Border "Excellent"

Senator Speaks Tonight to
Kansas City Crowd

KANSAS CITY, Sept. 25. (AP)—Senator Borah, Republican of Idaho, who is campaigning for the Republican national ticket, arrived here tonight with the declaration that the South, stronghold of the Democratic party, is in a state of unrest over the prohibition issue.

"There are only two real issues in the present campaign," he said. "They are prohibition and farm relief. If one could be regarded as more important than the other, farm relief is paramount."

"The line is drawn as tight as it could be on prohibition," Senator Borah said. "Mr. Hoover says he is opposed to the repeal of the Eighteenth Amendment. Mr. Smith says he favors its repeal. Mr. Hoover says prohibition is a noble experiment. Mr. Raskob says it is an affliction. Could the distinction be greater?"

Senator Borah just has completed a tour of Kentucky, Tennessee and Oklahoma. Conditions there, he said, are "much better than he expected. He termed the Republican chances for victory in those States as "excellent."

"There is unrest in the South over the prohibition question," the Senator reiterated, "and the reports I have received have been gratifying."

Senator Borah will speak in Convention Hall here tomorrow night.

MOUNTAIN "KING"

Reformed Kentucky Outlaw Shot
Appearance Before Grand Jury

FINEVILLE (Ky.) Sept. 25. (AP)—A bullet fired into his body from a distance of about 100 yards, killed a man known as "Hollow Part," Bill Henderson, for South America, a reformed outlaw, in a hospital here.

Despite their patient's confidence, physicians said Henderson is in a critical condition with the odds against his recovery. The bullet passed through his body and broke one arm, they said.

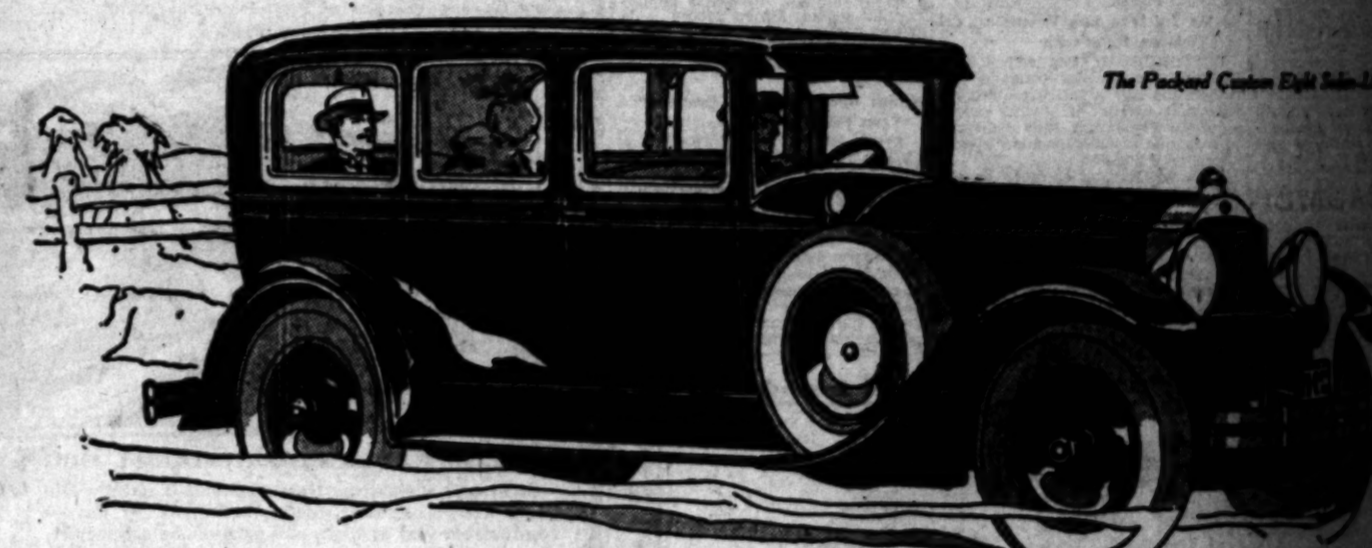

Henderson declares he was shot by Gilbert Maiden, 34 years of age, against whose cousin, Buster Parlin, Henderson appeared before a grand jury last week, and aided in bringing about a murder indictment against him.

Henderson, once reputed to be the most indicted man in the Kentucky Mountains, reformed from a life of lawlessness several years ago and gave his farm lands over to the establishment of a settlement school. His reform, which came when he thought he was in danger of dying, was brought about by Rev. Hiram Franks, who managed to obtain the suspension of more than a dozen indictments against Henderson, and got him a pardon on one of his convictions.

The minister said today the former ruler of the Bell county hills has kept his promise to go straight and that he thinks the present trouble is not Henderson's fault.

MAIN OFFICES OPENED
BY GROWERS' LEAGUE

SAN FRANCISCO, Sept. 25. (AP)—Headquarters of the Growers' Tariff League, organization pledged to the "propagation of the protective tariff principle for California agricultural products," was opened here today. Thirty agriculturists representing the almond industry and growers of fruit and field crops were present at an organization meeting last night.

A NEW LUXURY in
MOTORING

Now
Provided by the Packard Custom Eight

EVEN those long familiar with the finest Packards of the past, are unprepared for the greater riding and driving comfort, the sheer luxury of the new Packard Custom Eight.

The characteristic beauty and distinction of the new Custom Eight were to be expected. Even Packard can but enhance the grace of established Packard lines—and it is no part of the Packard policy needlessly to depreciate the cars in the hands of present owners.

And, of course, no finer powerplant than the simple, rugged, easily accessible Packard Straight Eight motor—with its nine-bearing crankshaft—could be anticipated.

But beyond these expected qualities—and surpassing any recent achievement of the entire industry—Packard now offers a new and unique Shock Absorbing System. This combination of Packard and European in-

ventions provides a riding comfort and safety which you must actually experience to appreciate fully.

Literally and without qualification the new Packard Shock Absorbing System makes the Packard the easiest riding car in the world—and also the safest. Won't you drive it as our guest, and see for yourself?

We want you also to note the wide range of beautiful colors available in the new Custom Eight line—each with harmonizing upholstery whose deep cushions of new design add the last touch of luxury to these creations.

Let us fairly appraise your present car. Its value should more than cover the down payment on the Packard Custom Eight. You may purchase from income on convenient payments if you prefer. Phone and we will send a car to your door.

HICKEY-FREEMAN CUSTOMIZED CLOTHES in Authentic Autumn Array!

Men of California, and of Los Angeles in particular, are more than ordinarily exacting about the quality of the clothes they choose to wear. Our established reputation as Stylists depends upon the fidelity we exercise in interpreting the preferences of these well-dressed men. Over a long period of years, we have become more and more particular about the clothes we choose to sell. Thus it is that Hickey-Freeman is entrusted with the planning, styling and tail-

oring of our finer garments. Thus it is too, that we so staunchly sponsor Customized Clothes. We feel that every man who is serious about his good appearance will be interested in seeing this fine clothing. We suggest your inspection of our window exhibition which conveys a very comprehensive idea of the beauty of Hickey-Freeman clothes. We hope, of course, that you will permit us to personally demonstrate the innumerable new and fine points of their fall product.

CHUCKLES from LIFE

Show Business Hits the Courts of Law At this courthouse beginning next Monday
Ginsberg vs. O'Toole
A marriage of laughter.
A riot of clean Irish-Hebrew fun.
You'll snicker, chuckle, laugh and roar at this side-splitting trial.
Ginsberg suing O'Toole for assault and battery.
The very thought makes you howl.
Beginning next Monday with Moe Ginsberg, Danny O'Toole, Judge Zipser and an all-star supporting cast.
No advance in prices.
Also, select murder and divorce trials.
Remember our policy:
The best show for the least money.
For three days only beginning next Thursday
Jones vs. Jones
Go ahead! Whoops! Scabbi!
You ain't seen nothing
Till you see this delicious, naughty but nice divorce trial.

Featuring Doris Jones, Jim Jones, Ruby LaRue, Judge Glantz and others.
You'll love it, you'll adore it, you'll eat it up.
Pajama parties, gin, night clubs, limousines, love and lingerie!
Special, magnificent, extraordinary super-feature coming soon
State vs. Butch Burke
You'll be chilled, thrilled, horrified, terrified, hypnotized.
By this daring dameless, dapper, divine sledgehammer murderer.
He's dangerous but he's different.
The greatest cast ever assembled in one courtroom.
Butch Burke, Buddy Hamlin, the fighting District Attorney, Judge Smith and more than a hundred newspaper reporters.
The treat you've been anxiously waiting for.
Positively no advance in prices.
Remember and tell your friends:
The biggest, the best, the most sensational trials
Always at this courthouse.

Record Prize Money Attracts Exhibitors to Annual Riverside Fair

Prize money in excess of \$35,000 has attracted a record number of agriculture, horticulture and live stock exhibitors to the sixteenth annual Southern California Fair, which opened its gates at Riverside yesterday. The bulk of the prize money will be distributed among exhibitors of agricultural and live-stock products of the district, but \$10,000 has been allotted as prize money in the six-day racing program. A feature of the present fair is the aviation which considerable space has been allocated. Stunt flying will have a place on the daily entertainment schedule. Photos below on this page were taken yesterday shortly after gates were opened. (Times photos.)

Los Angeles County Display of Flowers, Fruits and Vegetables.

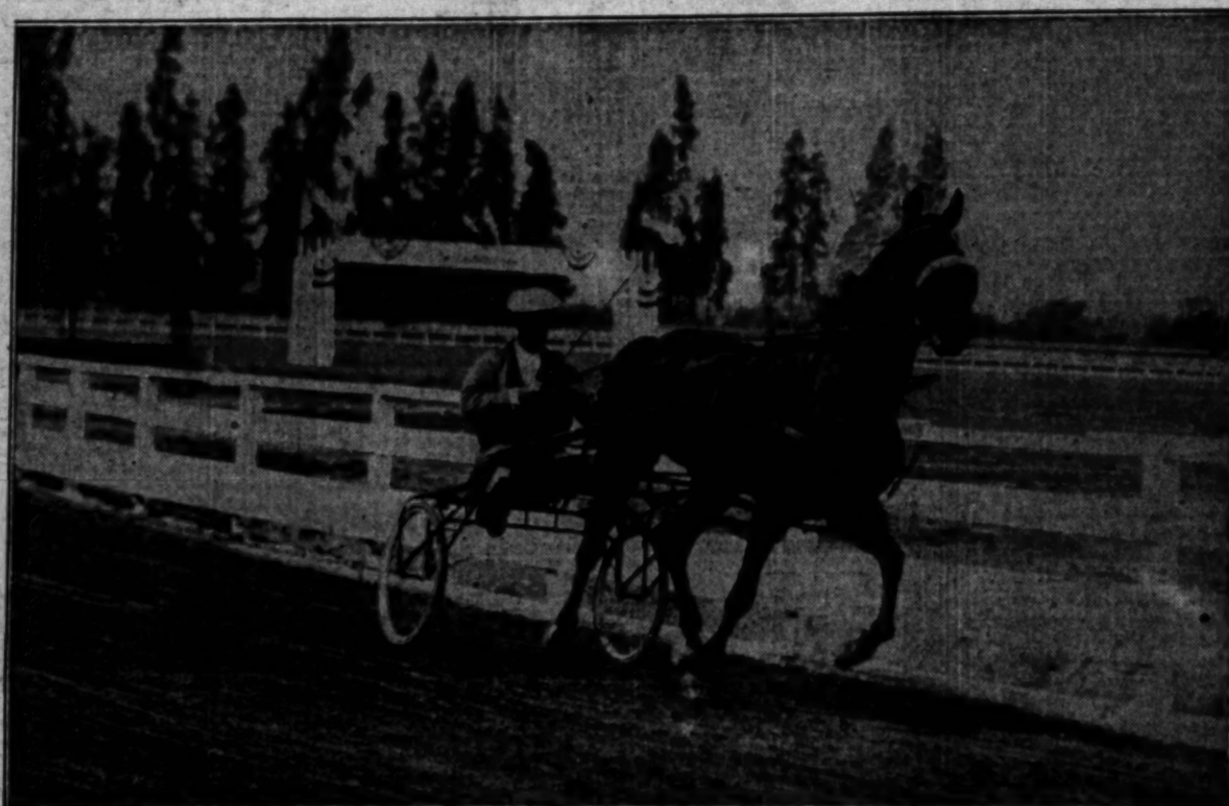

A Poultry Show Freak—Jacobin Pigeon.

The Potato Pump is Feature of Orange County Exhibit.

"Don't Count Me and My Banty Out."

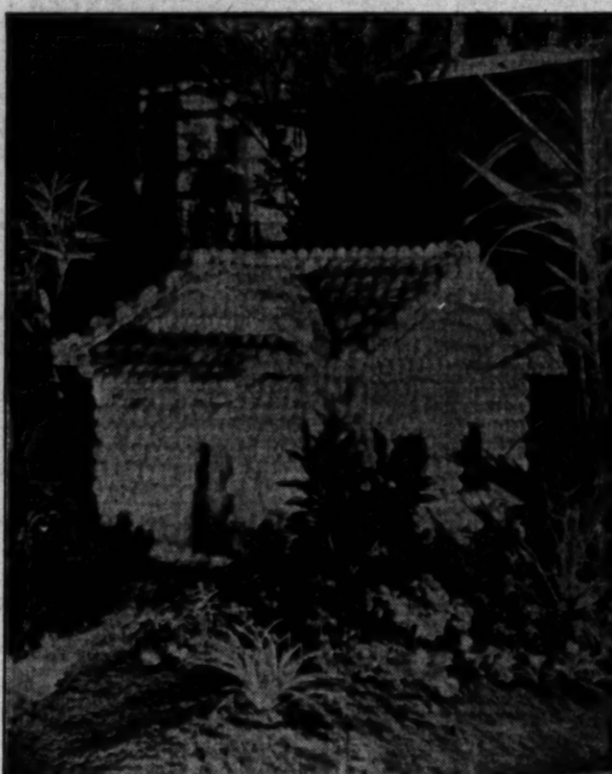

Limbering Up for the Six-Day Racing Program.

Awaiting the Bugle From the Paddock.

One of America's Most Famous Show Rabbits—Buster Brown.

Norco Farm Center's Egg House.

San Joaquin County's Horn of Plenty Feeds the World.

HIGH LIGHTS IN HISTORY

1143

The Story of American Industry.
America in the "Homespun Age"—Part 3.

by J. CARROLL MANSFIELD

IN AMERICAN COLONIAL DAYS THE CLOTHING worn by all but persons of wealth was made at home. WOOL AND FLAX (AND COTTON IN THE SOUTHERN COLONIES), THE CHIEF MATERIALS OF WHICH GARMENTS WERE MADE, WERE PRODUCED RIGHT ON THE FARM, AND THE MAKING OF TEXTILES WAS AN ACCOMPLISHMENT EVERY COLONIAL GIRL WAS REQUIRED TO LEARN.

IN THE CASE OF FLAX (FROM WHICH LINEN is made), THE OUTSIDE STALK WAS ALLOWED TO ROT IN A DAMP CELLAR BEFORE THE INSIDE FIBER WAS REMOVED. WOOL FIRST HAD TO BE WASHED WITH SOAP AND WATER. BOTH FLAX AND WOOL THEN HAD TO BE COMBED AND "CARDED" TO LAY THE TANGLED HAIRS OR FIBERS STRAIGHT.

THE COMBED MATERIAL, WHETHER FLAX OR WOOL, THEN WENT TO THE SPINNING WHEEL (A WHEEL, OPERATED BY A TREADLE, AND MOUNTED ON A THREE-LEGGED FRAME), WHERE IT WAS SPUN INTO YARN AND REELED ON TO SPOOLS. THE YARN WAS NOW READY FOR WEAVING OR KNITTING.

THE YARN WAS WOVEN INTO CLOTH ON THE GREAT LOOM WHICH WAS TO BE FOUND IN EVERY WELL-EQUIPPED COLONIAL HOME. KNITTING WAS DONE WITH BONE NEEDLES BY HAND, OR ON A KNITTING FRAME. FREQUENTLY THE YARN WAS DYED BEFORE IT WAS MADE INTO CLOTH.

Youthful Exhibitors in Junior Fair.

New straight line production plans of the Johnson Motor Company, Washington, Ill., manufacturers of out-board motors. Design and construction by Austin.

Your New Building Project Before Winter! . . . Designed and Built with Austin Speed

THIS is a direct and timely message to the business executive who faces the need for new plant facilities. The need may be caused by increased business requiring greater production, by national distribution requirements, by new and better methods making old plants obsolete. The economies to be obtained by straight line production make it imperative for every manufacturing executive to consider what modern methods have to offer in his business.

Whether your reason for building, time is doubtless a vital factor. In these days of swift action, even a month or two saved may mean much in your favor.

In 30, 60, or 90 working days Austin will design and construct your plant complete, from 25,000 to 500,000 sq. ft. or larger. Instead of separate architects, contractors, and sub-contractors, one responsible organization will handle all details under a lump sum contract which guarantees:

1. Low total cost for the complete project in advance.
2. Completion date within a specified short time, with bonus and penalty clause if desired.
3. High quality of materials and workmanship.

Whether your project be large or small, simple or complex—a complete or branch plant, warehouse, or commercial type of building—you are assured of the same dependable speed and the same guarantees as to cost and quality, when Austin builds.

For approximate costs and other information, quickly, on any type or size of project, wire, write, or phone the nearest Austin office.

SOUTHERN GALE DELAYING SHIPS

Many Craft Marked Late on Arrival Schedule

First Reports of Severity Brought to Port

Similar Setbacks Expected for Other Vessels

First reports of a storm off Central America were brought by ships arriving yesterday, while radio position reports indicate a large number of commerce carriers are encountering heavy going. The Marine Exchange yesterday had a back the anticipated arrival of a dozen vessels by two days, and prospects were as many more ships will be adversely affected.

Every mile of the 2000 from Panama here was fought with rain, lightning, headwinds and heavy seas, according to Capt. F. C. Stewart, master of the Western motorship Seaboard, in yesterday from Philadelphia with 5000 tons for the Quaker Line.

It rained so hard the waters miles from shore were tinted with mud along the entire Mexican coast," he said, "and we struck a California which delayed us a day."

The master of the East Lynn, in from England on her first Pacific voyage for Headon-Smith Line, pictured a downpour so fierce as almost to obscure his ship's bow from the bridge.

The storm is believed to be another Pacific companion of the Caribbean hurricane, observations being the other. An east-chapter depression also reported south of Alaska, which is expected to reflect itself generally on this coast.

Among the vessels bound here from Panama are the Scottish Minister, Suffolco, Orient City, La Florida, Cusco and the Benita. Sunday, the Panama Mail liner or Guatemala, from New York, is reported making unusual time, and is due tomorrow morning instead of Friday, as scheduled.

NATIONAL PARK GROUP VIEWS LOCAL BEACH

Two hundred and fifty delegates to the national convention of park commissioners came to the harbor yesterday to glimpse the Cabrillo Beach, reclaimed from the ocean by San Pedro by the Los Angeles Playground and Recreation Commission.

The man-made beach, which gives ocean bathing and breakers outside of the city, is the first of its kind in the world. It is the only one of its kind in the world. It is the only one of its kind in the world.

Rhine-Westphalia Electric Power Corporation

(Rheinisch-Westfälisches Elektrizitätswerk Aktien-Gesellschaft)

Consolidated Mortgage Gold Bonds, 6% Series of 1928

Carrying Certain Stock Purchase Rights for "American Shares"

To Be Dated August 1, 1928 Due August 1, 1933

The Rhine-Westphalia Electric Power Corporation with its subsidiaries comprises one of the largest electric light and power systems in Europe, with respect to property value, earnings, capacity of power stations and number of customers. The territory served embraces a large part of the Rhineland, including the Ruhr district, the most important industrial section of Germany. This territory has an area of about 9,360 square miles and a population of over 8,000,000.

The consolidated earnings of the corporation and certain of its wholly owned subsidiary companies, including only a portion of the earnings of the many other companies in which the corporation has a substantial and profitable interest for the three fiscal years ended June 30, 1925, 1926 and 1927, respectively, were as follows:

	1925	1926	1927
Gross Earnings, including Non-Operating Income	\$24,266,224	\$23,962,758	\$24,962,843
Operating Expenses, Maintenance and Taxes	18,563,957	15,165,562	16,992,064
Net Earnings, before Reserves for Renewals and Replacements	\$7,702,267	\$8,797,196	\$7,970,779

The earnings statement for the year ended June 30, 1928, is not yet available. It is fully expected that it will show earnings in excess of those for the previous year, which exceeded all previous years in the history of the corporation in point of earnings. Indications are that the current year will set another new record, the output during the past few months having increased approximately 23% over the corresponding period of the previous year. The net earnings of \$9,973,479 for the fiscal year ended June 30, 1927, as shown above, compare with annual charges of \$3,062,880, constituting interest requirements on the mortgage debt, including this issue, and estimated maximum fixed charges on industrial debentures issued under the Dawes plan.

The Consolidated Mortgage Gold Bonds will be secured by direct mortgages on the operating properties of the corporation, subject to \$6,681,610 industrial debentures issued under the Dawes plan and \$24,448,000 direct mortgage gold bonds. The mortgage under which these bonds will be issued will contain conservative restrictions governing the issuance of additional bonds under the mortgage. The mortgage will also provide for a cumulative sinking fund calculated to retire by maturity over 56% of the bonds of the 6% series of 1928.

Each \$1,000 bond will carry a stock purchase right, evidenced by an appropriate warrant, non-detachable until January 1, 1929, entitling the holder to purchase, after January 1, 1929 and on or before August 1, 1931, a certificate of The National City Bank of New York, representing four "American shares," each such American share being issued against the deposit with the trustee's agent in Berlin of 100 Reichsmarks (\$23.81) par value of the common capital stock (bearer shares) of the corporation. The price to be paid for each American share will be as follows: \$50 if exercised after January 1, 1929, and prior to August 1, 1929; \$52.50 if exercised on or after August 1, 1929, and prior to August 1, 1930; and \$55 if exercised on or after August 1, 1930, and on or prior to August 1, 1931, after which date the purchase rights will be void. The current market price of the German shares on the Berlin Stock Exchange indicates a market value for the American shares of approximately \$50 a share.

Application will be made to list these bonds on the New York Stock Exchange.

Bonds are offered when, as and if issued and marketed by or under the approval of our counsel, Messrs. Shearman and Sterling, New York City, and Decker, Friedberg, Krammer, Berlin, Germany. It is expected that delivery in the first instance will be made on or about October 17, 1928, in the form of temporary bonds or interest certificates.

Price 94 and interest, yielding about 6.49%

A substantial amount of these bonds have been withdrawn by credit Suisse, Zurich, for Switzerland. Additional amounts have also been withdrawn by other European markets.

PARISH OPENS DISEASE DRIVE

Called to Discuss Health Problems
Methods Passed on to Food Handlers
Ordinances Will be Later Feature

Dr. George Parrish, who lives at Palm and Santa Clara streets, Ventura, and Clyde Kinney, also a resident of Ventura, were confined to the San Fernando Hospital yesterday suffering from serious injuries received when the automobile they were driving crashed through a railing and down a 100-foot cliff near Reservoir Summit on the Ridge Route Monday night, according to reports at the Sheriff's office.

TWO HURT IN RIDGE CRASH

Dr. Parrish spoke at yesterday's meeting on general features of the campaign and endeavored to impress his listeners with the responsibility as guardians of the health of their patrons. Dr. George Stevens, city epidemiologist, explained how diseases are spread through the careless handling of food and of restaurant utensils. M. S. Siegel, chief supervising inspector of the health department, reviewed the present legal regulations by which the health of the city is guarded.

It was also revealed by Inspector Siegel that it is planned to redraft all the city ordinances bearing on health matters to bring them more in line with present-day conditions and problems. The various groups

Three-Day Convention Opens at Biltmore
Mayor Welcomes Executives to Los Angeles
Municipal Airports on List of Topics Today

A fourteen-hour day was registered yesterday by delegates to the affiliated convention of the American Institute of Park Executives; the American Park Society and the American Association of Zoological Parks and Aquariums, which convened at the Biltmore at 9 a.m. Singing of selections adapted to old-time and modern popular also preceded the formal address of welcome by Mayor Oryer and Mrs. Robert V. Socha, vice-president of the Board of Park Commissioners of Los Angeles, and the responses given by Hermann W. Merkel, president of the Institute of Park Executives; C. F. Keyser, superintendent of parks of Portland, Or., on behalf of the Park Society, and by C. Emerson Brown, director of the Zoological Gardens of Philadelphia, representing the Association of Zoological Parks and Aquariums.

Tribute Paid to Mrs. Glasscock

Funeral services for Mrs. Elizabeth Luelling Glasscock, 79 years of age, who died at the home of her daughter on North Sycamore avenue Saturday were conducted yesterday at 2 p.m. at the W. A. Brown funeral parlors at 1815 South Flower street. She was buried in Rosevale cemetery.

Mrs. Glasscock was the daughter of Henderson W. Luelling, who brought the first fruit trees to the Pacific Coast in 1847. Mrs. Glasscock, who was formerly Mrs. Eliza Luelling Wood, was at one time State president of the Women's Christian Temperance Union in New York. She leaves two daughters, Mrs. M. M. Loomis of Manila, Iowa, and Mrs. William Laidlaw of this city, beside four grand and four great-grandchildren.

Henry F. Lehman of Burbank Dies

Henry F. Lehman, for forty years a resident of Burbank, died suddenly on Monday morning at his home in that city. Mr. Lehman, who was a naturalized citizen, was born in Germany in 1847 and came to America when 14 years of age. In the early '90s he settled in Central California where he married Belle Reynolds.

He leaves his widow, three daughters, Mrs. Amy Young of Burbank, Mrs. Bertha Johnson of Hollywood, and Mrs. Alice Buck of Los Angeles, and a son, Harry F. Lehman, residing at the family home in Burbank. Funeral arrangements will be announced later.

Loyola Group to Hold Clam Bake

A clam bake on the beach below the site of the proposed \$5,000,000 Loyola University has been scheduled by Fritz B. Burns, general of Division E, for tomorrow afternoon for the 125 members of his group who are to unite in the civic campaign to raise a fund of \$4,000,000 for the construction of the building.

Following a visit to the Loyola campus, where two buildings now are being erected, the division members will go to the beach and perfect plans for the drive from October 8 to 17. The meeting is the last before the final dinner of 750 members of all divisions, October 4.

Dairy Owners to Ride Special

The largest delegation ever to represent California's dairy industry will leave on the President's special at 7:45 a.m. Saturday, October 6, next, for San Francisco, on the first lap of a trip to Cleveland to attend the International Milk Dealers' Association convention and the International Association of Ice Cream Manufacturers' session.

Officials of the Southern Pacific have named the train the President's special in honor of D. M. Dorman, president of the I.A.I.C.M., the first Californian to honor, who will head the delegation.

Los Angeles Hollywood Pasadena

Couple Wait Sixty-second Anniversary

Sixty-two years of married life will be celebrated by Mr. and Mrs. E. W. Osborn next Sunday at their home, 36 South Huntington Drive, Pasadena.

The couple have resided in Pasadena since 1920, having spent most of their lives in the Middle West. They were married in Salina, Kan. Mrs. Osborn is 71 years of age and Mr. Osborn is 80.

They followed the trails of pioneers during their early married life, and their baby daughter was kidnapped by Indians when they were crossing Oklahoma Territory. She was recovered after a bargain with an Indian chief.

Laying of the first steel rails in Kansas was witnessed by Mr. and Mrs. Osborn, and they also helped in the celebration of the completion of the first railroad into Trinidad, Colo.

Among those who will attend the anniversary celebration are two daughters, Mrs. L. V. Anderson of Trinidad, Mrs. Emma Parker of Los Angeles, two sons, L. E. Osborn of Arcadia, C. F. Osborn of Salt Lake City; two brothers, O. L. Osborn of Stockton and L. Osborn of San Diego.

SPECIAL PRIVILEGE ASKED

A complaint by the State Pharmacy Board that members of its department are being tagged just the same as anybody else for traffic violations in Los Angeles and asking that they be exempt when on emergency work was filed by the Police Commission yesterday. Chief Davis explained that police, State and Federal employees had no special favors and he was opposed to the Pharmacy Board's request.

SHOOTING PERMIT WON

Complaint that skunks, rabbits and coyotes are so thick on his 250 acres in the foothills near Encino that he cannot raise vegetables yesterday resulted in W. H. Hay, realtor being given a permit to shoot the pests. The permit was granted by the Police Commission.

KINDERGARTEN WINS

The City Council yesterday voted to file protests by neighbors of the Mother Goose kindergarten at 1425 West Forty-eighth street. Councilman Hughes said that he had personally visited the kindergarten and that he saw no objection to the place. The neighbors said that the children made too much noise.

Wilson Funeral at Chapel Set for Tomorrow

Funeral services for Arthur E. Wilson, 69 years of age, Los Angeles contractor, will be conducted in Grace Chapel, Inglewood Park Cemetery, at 1:30 p.m. tomorrow, with Rev. Clyde M. Crist of the Hollywood Methodist Church officiating.

Mr. Wilson had been a resident of Los Angeles thirty years, and had made a specialty of the construction of beautiful homes. He was actively interested in Hollywood civic affairs, and had acted in an advisory capacity in city planning. He was prominent in the affairs of the Hollywood Methodist Church. Mr. Wilson came to Los Angeles in 1898 from Ontario, Can. He had lived almost continually at the family home, 4833 Oakwood street, Hollywood, where death occurred Tuesday.

Mr. Wilson leaves his widow, Mrs. Elizabeth Jane Wilson, three sons, Percy E. L. Wilson, Harry C. Wilson and Carl W. Wilson; four daughters, Mrs. Harry Vetter, Mrs. Lloyd Rogers, Mrs. Grace Wilson of Los Angeles, and Mrs. Paul Armstrong of Burlingame, and a brother, H. W. Wilson. Ivy Overholser has charge of the funeral arrangements.

Flying Learned in Record Time

Edwin Magruder, 25 years of age, a salesman of El Paso, while on a vacation in Los Angeles decided to become an aviator.

Monday afternoon he took his first airplane flight as a student at the American Aircraft Corporation airport, 3809 Angeles Mesa Drive.

Tuesday morning he took his first solo flight. His total instruction time was two hours and thirteen minutes.

Theodore T. Hull, president of the California Air Race Association and president of the American Aircraft Corporation, says this is becoming a common occurrence at the modern aviation schools.

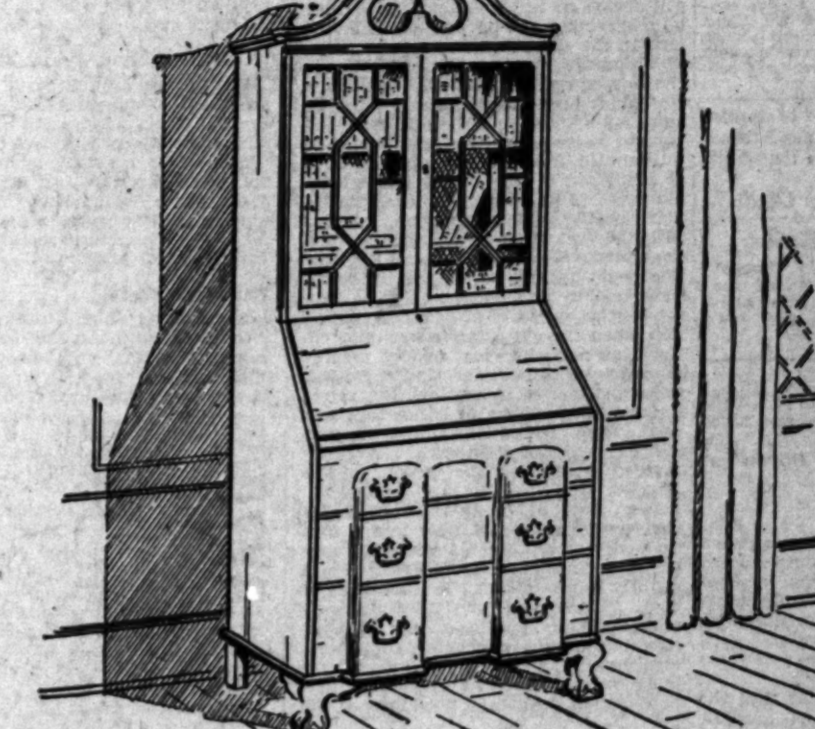

Default Order Issued Against Gambling Ship

Because of the assertion that owners of the Johanna Smith, gambling ship, failed to file a verified claim of ownership of the vessel, United States District Judge Henning yesterday issued an order in default. This places the ship in the position of being advertised and sold under libel proceedings unless the defense attorneys bring an action to counteract the order.

It is asserted by the ship-owners that the vessel was seized beyond the three-mile limit and not under the jurisdiction of the court. The government contends that the ship was licensed for coastwise trade and, instead, was used as a gambling ship.

The New Screens---

Have you seen them—the new Screens at Bullock's, in the lamp section? When they came on the floor someone remarked... "Never have I seen such lovely screens at such reasonable prices!" The prices are reasonable; but we want you to see the screens. \$79.50 to \$23.75.

BULLOCK'S, Sixth Floor

YOUR SKIN

Remains Naturally Lovely if

—you remove powder and rouge each night this way

THE real danger in make-up lies in the way you remove it. For unless it is removed each night carefully and thoroughly, pores will close, skin will be blemished and sallow. Cleansing your skin with palm and olive oils as uniquely embodied in Palmolive Soap keeps its texture fine, its color glowing and youthful. They penetrate and cleanse like nothing else will do.

Every night do this: Gently massage Palmolive lather into the face

for two minutes, using your hands. Allow the oils to penetrate and cleanse each pore. Then rise with warm water, then cold. Dry by gently patting with a soft towel. A touch of cream if skin is naturally dry. That is all.

Don't expect Palmolive results unless you use Palmolive. 10c a cake. Colgate-Palmolive-Peet Co., Chicago, Ill.

SOCIETY

BY JUANA NEAL LEVY

One of the most interesting events of the early fall is the Second Annual Pacific Southwest Tennis championships scheduled for a week commencing Saturday and held at the Los Angeles Tennis Club courts, 5861 Clinton street, and given under the auspices of the Tennis Patron's Association of Southern California.

Dr. Isaac Humphreys Jones is president of this organization while Col. William Eric Fowler is vice-president. A Nesbitt Kemp, second vice-president; James Rathwell Page, third vice-president; Sydney Irving Wailes, treasurer; Russell McDonald Taylor, secretary, and Capt. A. C. B. Gray, assistant secretary.

This tournament promises to be a success and is interesting both from the tennis and social standpoint.

Miss Helen Wills, the world's greatest woman player, champion of America, England and France, will be one of the participants as will also Henni Cochet, French Davis Cup star and world's champion, who is accompanied by his French teammates, Christian Bousquet and Pierre Landry, while the English Davis Cup team, H. W. Austin, E. Higgs, J. A. Gregory and I. G. Collins will play exhibition matches Saturday, Sunday and Monday. Other stars of the tournament include Miss Helen Jacobs, Mrs. Thomas C. Bundy (May Sutton), Mrs. Charlotte Chapman, Miss Edith Cross, Miss Midge Gladman, Wilmer Allison, John Van Ryn, John Doss, Gerald Stratford, Allen Harrington, Ben Gorchakoff, and William M. Johnston.

A dinner dance in honor of the English team will be given at the clubhouse tomorrow evening with James Rathwell Page as master of ceremonies while numerous small informal social affairs are being arranged in honor of the visiting stars during the tournament.

Among the box holders at the present time are Mrs. Sydney Irving Wailes, Mrs. William May Garland, Mrs. Edward Laurence Doherty, Mrs. Lyman Ross McPhee, Mrs. John Miller, Mrs. Ernest Albert Bryant, Mr. Andrew Chaffey, Mrs. Cecil Blount De Mille, Mrs. E. Avery McCarthy, Mrs. Isaac Humphreys Jones, Mrs. Harry Robinson, Mrs. Milton Sills, H. H. Bowers, Mrs. Harold Hyde Braly, Mrs. Harold James, Mrs. Edwin Janss, Col. William Eric Fowler, Mrs. Ben R. Meyer, Tod Ford, Jr., Mrs. M. E. Oetz, Mrs. Richard Jewett Schweppe, Mrs. James Rathwell Page, Mrs. Robert Irwin Rogers, Mrs. Frederick W. Flint, Jr., William Spencer Hook, Jr., Mrs. Alfred Wright, Mrs. Pembroke Thom, Mrs. Eugene Overton, Mrs. Herman Janss, Mrs. Roy N. Strohn, Mrs. Jefferson Paul Chandler, Mrs. William W. Mines, Mrs. David Blanken-

born, Mrs. Harry Haldeman, Alan Morphy, Mrs. Edgar Gail Miller, Mrs. Franklin Booth, E. L. Stanton, E. S. Church, A. G. Davenport, Jr., J. N. Henny, Simpson Sinsbaugh and Mrs. Malcolm McNaghten.

Benefit Dance
Los Angeles is issuing invitations for a benefit dance to be given at the Elks Club, Friday at 8 p.m.

Included in the reception committee are Mrs. David Ayre, chairman; Emma De Zarba, Fortia Yorba, Edward Gibbs, Jr., L. Wickensham, Ottilia De Velarde, Elena Bernstein, Dana Cox, J. O. Colwell, Orra E. Monnette, Carl Earl, Daisy Baumaner Costes, Paul Heydenreich, Will Lee Austin, Frances Arnold Greenwood, D. Joseph Coyne and R. E. Callahan.

The door committee includes Mrs. Charles E. Girard chairman, Laura de Valencia, C. J. De Velarde, R. E. Filcher, Aurelia De Oslo, and Misses Aurora Almada, Catalina Gayou, Elizabeth Girard, Alicia Harispuero and Elia Urrea, while the ticket committee consists of Mrs. Robert Chapman, chairman; Mrs. Mary Bell Chapman, Luisa De Seaman, H. W. Booth, Frank Pickett, L. R. Sattler, Sydney Van Noorden, Archibald Hart, Adela Friberg, Florence Hart Allen and R. E. Crespo.

The floor committee, with Mrs. Eleanor Jael chairman, includes Mrs. Clarence B. Kerr and Mrs. Manue Ayulo, wife of the Peruvian Consul. Las Violetas are Misses Mariana Servin, Celina Zuriga, Maria Gil, Beatriz Guzman, Lupe Harispuero, Greta Hauser, Emma Taylor, Oreta Ruiz, Maria Crespo, Maria Luisa Villaseca, Lucracia Acosta, Maria Sobral, Emma Castillo, Cecilia Zobelein, Marjorie Mae Hart, Mary Frances Sherwood, Katherine Ryan, Katherine O'Meara, Blanche Girard, Mami Mami Voight, Santos Zaragoza, Adelita Pina, Ortescia Luna, Angelita Gayou and Agnes Ayre.

The affair is given for the benefit of La Cruz Azul.

For Visitor

One of the beautifully appointed affairs of the week will be the luncheon and bridge with which Mrs. Charles W. Hinchcliffe of 817 South Bonnie Brase street is entertaining at the Women's Athletic Club, Friday afternoon in honor of Mrs. Orville W. Cannon of Danville, Ill., who has been passing the summer in Southern California and leaves shortly after October 1 for her eastern home. Several tables of bridge will be arranged in the spacious card rooms after the luncheon.

Charles W. Hinchcliffe, Jr., who has been visiting his mother for the past four months returned several days ago to his home in Tucson, Ariz.

Felicitations

Mr. and Mrs. Alfred Kittredge Hamilton of 843 South Berkeley

PASADENA GIRL WILL MARRY

Ceremony to Take Place Next Month

Miss Elaine Collins Utterbach

MUCH interest to society of the Southland is the formal announcement made by Mrs. Florence Collins Porter of 1134 Mound street, Pasadena, of the betrothal of her charming young grand-daughter, Miss Elaine Collins

Utterbach, to James Douglas Stewart, son of Dr. and Mrs. Lee K. Stewart of Pasadena. The wedding will be one of the brilliant events of Saturday, October 6, the ceremony to take place in St. James's Church, Pasadena.

Englewood Hamilton after her maternal grandmother, Mrs. Christian Brown, of this city. Mr. and

HEALTH DIET

ADVICE

Dr. Frank Mc Coy

author of "The Four Food Rules"

Dr. McCoy will answer personal questions on health and diet, care of the Los Angeles Times. Inquire about, telephone 1000.

The number of deaths from tuberculosis per 1000 population is steadily decreasing each year. In 1912 the number of deaths per 1000 was 139, and the number has gradually decreased until the latest census has shown a reduction to 73.7 per 1000. This steady decrease in the number of deaths is probably due to improved sanitary measures that are now being employed throughout the world, and to a better understanding by the general public as to good foods.

The antituberculosis societies have been of much value in spreading information about this disease and in teaching people to avoid becoming overtired. It is likely that the number of deaths from this disease will be still further reduced as the information as to how to build and maintain health becomes more popular.

From my personal experience in diagnosing and treating thousands of cases of tuberculosis, I have been forced to believe that the most common causes of tuberculosis are: first, an immovable diaphragm and a small chest capacity; second, becoming overtired, which lowers the resistance and permits the toxins to accumulate within the body; third, wrong eating, which permits the body to become seriously deficient in alkaline elements.

Tuberculosis of the lungs originates with foreign matter or bacteria in the lungs of the sufferer. I do not believe that the bacillus of tuberculosis is a primary cause of this trouble, unless I have seen many advanced cases where it has been impossible to find any trace of this bacillus.

A quick form of tuberculosis known as catarrhal consumption usually causes death between the first and third months. Those cases which recover usually settle into chronic tuberculosis.

This disease may lurk in any portion of the body, but is most frequently found in the lungs, usually beginning in the upper lobe. The onset is quite gradual and the usual is a period of months or even years of a noticeable tendency to become easily tired.

This is usually accompanied by a persistent cough and large quantities of mucus should arouse suspicion and one should immediately begin the process of strengthening the body.

Night sweats often occur in the earlier stages of the disease and a patient may feel as tired in the morning as when he retires.

Mrs. Brown returned recently after a month's sojourn at Balboa Beach.

For Bride-elect

Mrs. Charles S. Crall and Miss Gladys Jane Crall entertained at luncheon yesterday at their home in Wilshire Boulevard. Twenty-five intimate friends were invited in honor of Miss Crall's engagement to Hugh H. Evans of this city. Claudine Perret roses were the only decoration.

The guests were: Mrs. Joe Crall, Mrs. John D. Fredericks, Mrs. Wilhelmina Hole, Mrs. Samuel K. Rindge, Mrs. John G. Bullock, Mrs. E. Dickson, Mrs. Alfred Dewey Davey, Mrs. Charles Toney, Mrs. C. C. Costle, Mrs. Raymond Tremaine, Mrs. James Van Law, Mrs. Eugene Tilden, Mrs. Harry Lamport, Mrs. John Mullin, Mrs. Pettis Tanquary, Mrs. Walter Blunk, Mrs. Lincoln Hoffman-Pincher, Miss Estheline Murphy, Miss Amy Phillips, Miss Ramona Rindge, Miss Edna Louise Ruwe, Miss Frances Jamison, Miss Ruth Cannon and Miss Sylvia West.

Mr. Evans, son of Mrs. H. H. Evans of Arkansas, is an alumnus of Hendrix College, the University of Arkansas, where he received his A. B. degree, and Columbia University. The wedding is to be held early in November.

Cards for a tea to be given October 8, in honor of the bride-elect, have been issued by Mrs. Crall and Miss Crall.

Brilliant Opening

Monday, October 1, at 8:30 p.m. will mark the opening of the Theater Mart, 605 Juanita avenue, with Elita Kistin's new comedy drama, "Sensation," directed by Henry Kolker, with the following stellar cast: Alma Tell, Ben Bard, Mary Carr, Geneva Stone, David Teale, Elia Lorimer, Margaret Kolker and Raymond Lawrence.

The premiere will be a strictly invitation affair for the press and important personages of the stage and screen. Since the Theater Mart is a professional "try out" theater, commercial producers, motion-picture executives and agents are eager to view the production. Preparations are in progress to transform the patio of the beautiful Spanish type theater into a bower of loveliness for the opening night. The production committee under the chairmanship of Francis Joseph Hickson is hard at work completing arrangements. Other members of the committee are: Mrs. R. D. Shepherd, Mrs. J. Stuart Blackton, Mrs. Gordon Wallace Wattles and Miss Eleanor Lawson.

Owing to the limited seating capacity many people anxious to view the production will have to choose a subsequent evening. The play will run until October 6.

The Theater Mart is a unique organization, dedicated to the production of original plays. Its founder and president is Alice Pike Barney. Dr. T. Perceval Gerson is vice-president. Other members of the board of governors are: Miss Doris Lloyd, Miss Raita Kistin, Dr. Carol Aronovitch and Francis Joseph Hickson.

Undecided

Joseph, age 4, was petulant one day, much to the exasperation of his mother. At last, when there was nothing else to complain of, he held up his foot, saying "pumpin" was in the shoe.

His mother unlaced it, but could find nothing to cause the pain, whereupon Joseph countered with: "Maybe it's in the other."

(Indianapolis News.)

"That's a MJB real cup of coffee!"

"Oh, do you like it?"
"Great. The best you ever served."
"Well, we've been experimenting for weeks. Too bad we didn't try M-J-B first."

Many people find that with M-J-B, the strong blend, they use slightly less coffee than with other blends. But whether you make it strong or weak, M-J-B has a flavor that only the strong blend can give.

Now it comes to you vacuum-sealed in the new, tall key-can. Both the vacuum process and the improved key-can belong exclusively to the M-J-B Company and are available only to M-J-B users.

FAMOUS LAWN BOWLERS DUE

Champion Australian Team to Visit Pasadena

Players Have Won Titles in Many Countries

Local Crew Must Win or Visitors Are Supreme

PASADENA, Sept. 25.—Sixteen of New Zealand's best lawn bowlers will arrive here on Saturday from the Antipodes for a series of matches with the Pasadena Lawn Bowling Club team. The visitors landed at Vancouver recently and will be entertained by the lawn bowling club of many Southern California cities.

The members of the New Zealand party are Mr. and Mrs. R. A. Aden and Miss Aden, J. B. Frame, J. Hutchinson and J. H. Thompson, all of Dunedin; W. E. Avey, J. W. Hardley, Mr. and Mrs. H. J. Hardley, Mrs. W. Parker and Miss Parker, Mr. and Mrs. T. J. Thompson, Mr. and Mrs. A. W. Wilson, all of Auckland; F. J. Hill of New Plymouth, J. A. Macdonald of Wauwatu and Mr. and Mrs. J. Subon of Levin.

The Antipodeans are reported to have defeated the champion lawn bowling rinks in India, England, Scotland, Ireland, Wales and Canada. Unless Southern California bowlers can defeat them they will lay claim to the lawn-bowling championship of the world, it is said.

Hawthorne Will Hold Festival for Community

HAWTHORNE, Sept. 25.—Under the direction of the Chamber of Commerce, this city is to enjoy a community festival week starting tonight with a banquet at the cafeteria of the Ballona-avenue school. Capt. C. S. Nussbaum, a specialist in community development and co-operation, will deliver an address and later will speak at a public meeting at the Killian Hall and auditorium of the Ballona-avenue school. The meetings are being conducted for the purpose of forwarding good citizenship and developing community consciousness in the city.

County Plans to Help Towns Get Airports

SANTA BARBARA, Sept. 25.—A policy of assisting all communities in the county in subsidizing airports to the extent of a sum equal to the 5-cent tax rate was adopted by the Board of Supervisors yesterday when it passed a resolution to assist Lompoc in getting an air field. The county will pay one-half the cost of the airport, leaving Lompoc to pay the other half. The county, according to the policy adopted, can aid Lompoc in getting a field to the extent of \$2500. The Lompoc Chamber of Commerce is planning to rent a field for \$75 a month, retaining an option to buy within a year. The county's share of the rent will be \$450, leaving \$2500 to assist in the purchase. According to the policy, the Supervisors will be able to assist in subsidizing a Santa Barbara airport to the extent of more than \$20,000.

Phone Company Changes Owners

ONTARIO, Sept. 25.—Negotiations which have been in progress for several weeks culminated today in the sale of Ontario-Upland Telephone Company to a group of local stockholders, Charles Tuttle, manager of the local company, announced. The sale has been removed for some time. As soon as the details of the transfer are completed the new owners will be made known and a stockholders' meeting will be held here for election of directors and officers, Tuttle said. Offices of the corporation are to be moved from San Francisco to Ontario, according to Tuttle. No change is contemplated in the present working organization, it is understood.

WORK STARTS ON VALLEY AIRPORT

VAN NUYS, Sept. 25.—First steps have been taken in the construction of the Metropolitan Airport at Woodley avenue and Saticoy street, one of the new enterprises in this section. Ground is being leveled and rolled for two runways. Waldo D. Waterman, manager, has let a contract for the erection of offices, shops and hangars. The next contract will be let for the factory building of the old mission last Sunday. This company will build nine specially designed planes for the Pickwick Stage Company, to be used in passenger transportation.

HOLLYHOCK MAKES RECORD

ONTARIO, Sept. 25.—R. R. Snowden, 643 East H street, lays claim to a hollyhock record. Today he placed on exhibition at the Chamber of Commerce a hollyhock grown at his home. The plant measured fifteen feet, ten and one-half inches in height and bore 179 blossoms with thirty-six seeds to each pod, giving a total of 6444 seeds. If each seed does its duty this fall and raises one stalk he will have 41,520, 136 hollyhocks next spring.

WILD WEST MIX-UP IN SANTA ANA

Strayed Cattle, Bad Lands, Brands, Market Shipments, All in California Court

SANTA ANA, Sept. 25.—When Steve D. Falls of El Modena received a \$900 check from a livestock bureau in Chicago a few months ago, he was surprised by the unexpected windfall, but cashed the check. That he didn't expect it is agreed between Falls and the authorities, but whether he was entitled to it is a question upon which there is no agreement and which resulted in the arrest today of Falls on suspicion of grand larceny. Robert Sandon, District Attorney's investigator, made the arrest at the request of the authorities at Gardena, Mont., where Falls formerly lived.

Falls asserts the check was rightfully his, while the Montana authorities contend it belonged to Arthur Brewer, Montana cattleman. Falls and the authorities agree that the check represents payment for a shipment of cattle from Montana to Chicago, the check being mailed to Falls because, it is said, the livestock bureau made a mistake in brands. Brewer admitted shipping the cattle. The State of Montana even has gone so far as to pay Brewer for the error made by the livestock bureau. Falls, it is said, is willing to admit that Brewer shipped the cattle and that perhaps the bureau meant to send Brewer the check. But the check really got to the right party after all, according to Falls, because the cattle originally belonged to him. He contends that the cattle strayed into the "bad lands" and were there rounded up by Brewer and shipped to market. Falls came to Orange county several years ago.

Post Entertains in Montebello

MONTEBELLO, Sept. 25.—Members of Montebello Legion Post 272 and their friends celebrated the close of a most successful year last night with a dinner and program. Among the guests of honor were Phil Dodson, national executive committee and Past Deputy Commander; Chet Turner, County Council Commander; B. M. McClellan, National Commander of U.V.F.; Lieut.-Gov. Burn, Pitts and Leslie Arnold and Henry Ogden, around-the-world flyers. At the close of the evening V. E. Row was made Commander of the post for the coming year.

QUEER PLACE FOR BEES

RESEDA, Sept. 25.—Six swarms of bees have built nests in the street roadway on Wilbur avenue, between Topham and Hatteras streets, and traffic is passing over the hidden insects. At that point the ground is a mass of catcombs, and gives a hollow sound when struck with a stick. In spite of autos passing over the road the bees do not seem to be disturbed, and nobody as yet has been stung.

BANDITS ROB RESTAURANT

Two Young Men, Thought to Be Mexicans, Make Haul From Both Safe and Cash Register

HUNTINGTON PARK, Sept. 25.—A pair of bandits shortly before midnight last night went into the San Carlos Cafe, ordered sandwiches from the proprietor, V. Matrangola and after eating them pointed a gun at the owner of the place with the command for him to be seated. He was behind the counter at the time, and while occupying a chair, one of the men removed the money, about \$275 from the safe, and then took about \$90 from the cash register. They then covered Meryl Fisher, waitress, with their revolver, after which they compelled her to step into the kitchen. The pair then escaped through a kitchen door.

Both men were thought to be about 140 pounds, and was about 24 years of age. The other was about 6 feet in height, weight 180 pounds, and was also about 24 years of age.

Riverside Visitor Hit by Blunt Instrument Which Inflicts Dangerous Hurts

RIVERSIDE, Sept. 25.—Feared to be suffering from concussion of the brain, Lou White, 4002 West Seventeenth Drive, Los Angeles, is in the Community Hospital following a brutal attack made on him last night. White was found unconscious in a pool of blood at Sixth and Orange streets. He apparently had been severely beaten with a blunt instrument.

Chino Couple Will Celebrate Golden Wedding

CHINO, Sept. 25.—Fifty years ago a young man and his sweetheart stood before a minister in a little town in Northwestern Iowa, near Sioux City, and promised to stay by each other through whatever might happen in life. They left the minister as Mr. and Mrs. Orlando J. Newner and together they have gone through fifty happy years at Los Serranos County Club.

Objections to Franchise Hold Action for Week

SANTA ANA, Sept. 25.—A spirited debate between P. A. Stanton and ex-Judge G. H. Morrison of Seal Beach, opposed to L. H. Young of the Santa Fe Springs Water Disposal Company, in which Stanton denounced the plan of the oil-field concern to dump waste water on the beach, and Morrison accused the company of "criminal taking" of forcible possession of a public street without authority, culminated today in a hearing of a petition for a waste-water franchise before the County Supervisors.

Police Useless at Formation of Smith Club

YUCAIPA, Sept. 25.—Sheriff W. A. Shay and a dozen deputies stood about the Yucaipa Hotel last night while a Democratic Smith-Robinson club was being formed under the leadership of R. L. Brooks, horticultural inspector for the valley.

Married Couple Fined Heavily

HUNTINGTON PARK, Sept. 25.—A total of \$1500 found its way into the city treasury as a result of three fines which were paid by Mr. and Mrs. C. Roberts of Los Angeles, who pleaded guilty to violations of the Wright Act. Roberts was charged with possession and transportation and Mrs. Roberts with possession. The sentence on each charge was \$500 fine or 100 days in the County Jail.

BAPTIST PREACHER'S SON TURNS CATHOLIC

SANTA BARBARA, Sept. 25.—Harold Goodfield, son of Rev. Benjamin Goodfield, pastor of the First Baptist Church, has been received into the Catholic Church, it was learned today. He received his first communion in the old mission last Sunday. A week ago he was given instruction in the faith and was received into the church by Father Boedekker of the old mission.

ESTATE IN TRANSACTION

VAN NUYS, Sept. 25.—One of the large local realty deals recently completed involved about \$200,000 in value in Van Nuys property. R. W. Huntley, who owned three apartments and a house on Sylvan street, traded his holdings for the suburban estate of Bertie Sorenson on Chandler Boulevard. The tract contains a fine home and walnut trees fourteen years of age. The transaction was handled by Rockwell Smith of Van Nuys.

PASADENA GETS SURPRISE

New Scenic Highway Over Linda Vista Hills Assured Without Cost to City

PASADENA, Sept. 25.—This city is assured of a new scenic highway connecting with Glendale today as the Board of City Directors approved contracts for the construction of a road over the Linda Vista Hills from Linda Vista avenue, to Chevy Chase Drive.

CLAREMONT OPENS ITS BUILDING

College Offices Located Temporarily in Residence Three Blocks from School

CLAREMONT, Sept. 25.—Physical separation of Claremont Colleges from their parent institution, Pomona College, was completed here today with the opening of separate offices for Claremont Colleges, entirely away from the Pomona College campus.

Civic Officials Wax Facetious in Name Change

PASADENA, Sept. 25.—If a city has not lake, lagoon, or even a saltpan pond within its confines, how can it have a Lake avenue without making itself ridiculous? Following a spirited debate on the question, "What's in a Name?" the Board of City Directors declined to act today on a petition requesting that the name of Lake avenue be changed to Atlantic Boulevard.

DR. SCHOFIELD DIES IN CORONA DEL MAR

FULLERTON, Sept. 25.—Dr. J. R. Schofield, 60 years of age, retired physician, who had been active in local civic affairs during the past twelve years, died at his home in Corona del Mar at 11:30 a.m. today, death following a paralytic stroke suffered a week ago. Dr. Schofield had retired from active life and moved to Corona del Mar from his orange grove near here, in order to have rest and quiet. He had been particularly active in farm bureau affairs, serving as one of the first secretaries of the Orange county bureau and later as president in 1922. He was active in the Masonic and L.O.O.P. orders, and was a member of the Elks lodge and four children survive. Funeral services will be held some time next week upon the arrival of a son from Casper, Wyo.

LONG BEACH PLANS TO SELL LUMBER SUPPLY

LONG BEACH, Sept. 25.—The Director of Public Service was authorized by the City Council today to sell to not exceed 25,000 feet of lumber which has accumulated from the raising of buildings on the Pacific-Southwest Exposition grounds. The money is to be used to meet the city pay roll. A total of 600,000 feet of lumber will be salvaged.

SUIT OVER AUTOMOBILE

SANTA ANA, Sept. 25.—Guido Palieri, Sr., of Fullerton, who was involved in a lawsuit filed against his son, Guido Palieri, Jr., and lost a sedan during the proceedings, today filed suit for \$2120 damages against F. R. Carroll, Inc., Fullerton automobile firm, which was plaintiff in the previous action.

FINANCIAL SUPPORT ASKED

Elsinore Citizens Want Aid for New Scenic Road Between Lake and Beach at Capistrano

RIVERSIDE, Sept. 25.—Financial support for the proposal to construct a scenic mountain highway from Elsinore to Capistrano was asked of the County Supervisors today by a delegation of prominent Lake City citizens. The board was requested specifically to join Orange county in the formation of a joint county road district. A 3-year program providing for the expenditure of virtually \$400,000 was sought. Riverside county would pay approximately \$64,000 of this amount, the remainder being provided by Orange county and the State of California.

BEACH CENSORSHIP DOESN'T FAZE HER

Young Fontana at Play

She might be in trouble if the ocean over that bathing suit but it does not seem to be causing her any trouble in Fontana's new community swimming pool.

Sheriff's Trial Halted by Judge

EL CENTRO, Sept. 25.—After five days of debate between members of the District Attorney's staff and lawyers representing Sheriff Charles Gillett, on trial here under grand jury indictments charging theft and fraud, Judge A. C. Finney this morning halted the open-court proceedings and asked the attorneys to submit their arguments in brief.

Defense attorneys were given one week in which to present written arguments supporting their demurrers to the complaints. The prosecution will then have a week to answer. The court stated that he would rule on the demurrers on November 2, next, when Gillett is scheduled to appear to enter his plea.

Santa Barbara Forwards Quota

SANTA BARBARA, Sept. 25.—Red Cross headquarters today mailed a check for \$4000, its quota for hurricane disaster relief, to the Pacific Coast division headquarters in San Francisco. As far as could be learned Santa Barbara was the first city in the State to reach its quota. Further appeal for funds is made by local officials of the Red Cross.

QUOTA DOUBLED AT SAN CLEMENTE

SAN CLEMENTE, Sept. 25.—The first contribution to San Clemente's quota for the Florida relief fund, \$80, given by H. H. Oatton, local banker, put this city "over the top." That was the quota set by T. E. Stephenson, Santa Ana chairman of Orange county's Red Cross organization. Two other contributions made on the first day, raised the quota to \$100. Mayor Thomas Murphree giving \$25 and Trafford Huetton the same amount. Mrs. Maude Murphy has charge of the local drive.

ENGINE BEING TAKEN OFF STRANDED SHIP

NEWPORT BEACH, Sept. 25.—Removal of the engine and other equipment from the fishing smack Valencia is to be effected immediately because the waves are gradually breaking up of the hull where it went aground in a fog recently. Ross O. Davis, local man, had just completed negotiations for the purchase of the boat for approximately \$5000 and was bringing it to Newport Harbor when it grounded on the beach at D street.

SON GIVEN ENTIRE ESTATE OF MOTHER

SANTA ANA, Sept. 25.—The late Mrs. Rea Flood willed her only son, Dr. W. A. Flood of this city, her entire estate valued at approximately \$40,000. It was about to be probated today when a petition to probate the will was filed in Superior Court. The estate includes a \$18,000 real estate, a \$4000 orange grove and \$10,000 residence property here, Newport Beach property valued at \$3500; an interest in Los Angeles property and stocks and notes of a total value unknown.

SEPTEMBER 20, 1925.—[FRIDAY]

[illegible]

1840 • EIGHTY • EIGHT • YEARS • OF • SERVICE • 1928

1840 • EIGHTY • EIGHT • YEARS • OF • SERVICE • 1928

A black and white photograph of a man and a woman sitting on a ship's deck. The man is wearing a hat and a dark jacket, and the woman is wearing a light-colored dress. They are both looking towards the camera. In the foreground, a large life preserver is visible, with the word 'AQUA' on the top half and 'LIVERPOOL' on the bottom half.

**When At Sea The World
Is "At Home" In The
Aquitania!**

"Aquitaniens" are discerning globe-trotters, irresistibly drawn to that great ship by a common zest for travel and comfort.

To them it is a matter of necessity . . . that extra spaciousness they find in Aquitania suites . . . those charming staterooms that have that welcoming air of the thoughtfully planned guest room . . . private bath, of course . . . the vivid personality, the tempting made-to-order dishes of the Aquitania's "intimate" restaurant . . . in fact, all those high spots of elegance and extra service that proclaim so surely, "It's Cunard."

CABLES COMBAT RULE OF RADIO

Transoceanic Field Has
Lively Contest

Federal Commission Gets
Wind of Fight

Transoceanic Concern Tells of
Delivery Balks

BY MARTIN CODEL

Copyright, 1928, by The North American Newspaper Alliance

WASHINGTON, Sept. 26. (Ex-clusive)—Radio's advent into the transoceanic telegraph field as a competitor of the cables has not gone without challenge and struggle.

The monumental battle that is raging between the radio and wire interests was unfolded before the Federal Radio Commission in the course of the short-wave hearings that concluded.

Radio Corporation of America, present operator of nearly all of the American transoceanic radio circuits, revealed to the commission that it has been unable to conclude satisfactory "pick-up and delivery" arrangements with the two large telegraph systems of the country, the Western Union and the Postal Telegraph Company.

Both of these concerns, as owners and operators of submarine cables, are charged with making to impose conditions upon the R.C.A. that are conducive to "strangling radio competition." Neither land toll nor routing agreements can be effected with the land lines, according to William A. Winterbottom, the R.C.A. radio chief.

NEW CHANNELS ASKED

Hence the Radio Corporation's applications for sixty-seven new continental channels and the extended use of other waves already assigned to it in the transoceanic bands for the purpose of establishing a rival network of telegraph stations covering large cities throughout the United States.

The applications propose a system of trunk circuits joining four focal cities from which other circuits will radiate. Nor will these "feed" to coastal transoceanic stations, but messages will be accepted from the public in direct competition with the domestic telegraph services, according to prospectus.

From New York, it is proposed to operate circuits to Cincinnati, Detroit, Cleveland, Akron, Pittsburgh, Norfolk, Buffalo, Portland, Me., Rochester, Washington, Baltimore, Boston, Schenectady and Philadelphia. San Francisco would serve Denver, Seattle and Los Angeles and there would also be an extension circuit between Seattle and Portland, Or. Chicago would radiate messages to Milwaukee, Minneapolis, Kansas City, St. Louis and Denver. The station at New Orleans would serve Savannah, Memphis, Dallas, Houston and Galveston.

OPPOSITION MASKED

An undercurrent of opposition to each other was discernible among the spokesmen for the various radio-telegraph projects which the several applicants proposed to establish with the short waves. It did not crop into the open, however, and was only indirectly expressed.

The major newcomer in the communications field, the Universal Wireless Communications Company of Buffalo, asked for priority in wave assignments by virtue of the fact that it was first to conceive of the feasibility of a nation-wide network of radio telegraph circuits to carry traffic in competition with the land wires and was the first to apply for the necessary channels.

It rested its case on its technical capacity and pins its hopes for a share of channels from the crowded spectrum on the theory that private initiative and free competition will be recognized as desirable by the commission.

MACKAY MAKES BID

The Mackay Radio and Telegraph Company, which is part of the system embracing the Postal Telegraph Company, rested its arguments for sufficient wave lengths to supplement its land lines with radio with the plea that existing communications companies be granted prior rights by virtue of proved ability to serve the public.

Western Union failed to put in an appearance; its officials have referred all statements that radio is a serious competitor to the "eloquent answer" presented by the fact that it has just laid a new high-speed paraffin cable to the Azores for a faster reach into Europe.

When the Radio Corporation of America entered upon the scene in the hearing room, its counsel, Col. Manton Davis, declared that the Radio Act of 1927 makes mandatory the separation of cable and radio interests for the purpose of competition.

Because the R.C.A. is now proving with high technical skill that international radio circuits can be operated successfully and because that

Pair to Walk 9000 Miles

NEW YORK, Sept. 26. (UP)—Two young Chileans with a will to walk started today on a 9000-mile hike to Santiago in their native land. They left from the statue of Columbus in Columbus Circle, planning to tramp twelve hours a day and hoping to reach their journey's end in three and a half years. Their names are Javier Garrido and Tomas Ulloa.

company is being deprived of a "feeder" system from the interior of the country, he asked for priority in the crowded short-wave band.

RATE CUT CITED

It is the claim of the R.C.A. that its competition has brought about the first reduction in cable rates in the last thirty-eight years. Radio competition, according to Mr. Winterbottom, has affected a saving to the American public of about \$30,000,000 in communicating tolls.

Radio, according to Col. Davis, has "earned its own way." It has not cut into the revenues of the cable companies because of the fact that traffic has increased so greatly.

The lower rates, the increase in foreign trade and the normal growth in the demand for service may account for this, although these factors alone cannot be accepted as accounting for the fact that some 10,000 messages a day now pass over the Atlantic circuits and 2000 a day over the Pacific circuits.

Since the Radio Corporation of America now holds a virtual monopoly in the transoceanic radio field, the long reaches represented by its circuits should be noted. It operates trans-Atlantic circuits connecting directly with England, France, Germany, Poland, Italy, Holland, Belgium, Portugal, Norway, Sweden, Turkey and Liberia. In Central and South America, it operates circuits with Porto Rico, St. Martin, Colombia, Venezuela, Dutch Guiana and Argentina, and within the next few weeks is prepared to inaugurate new services with Cuba and Chile.

PACIFIC SPANNED

Across the Pacific it operates with Hawaii, the Philippines, Japan, China, Hongkong, French Indo-China and Java. Then there is a circuit from New York to Montreal, which connects directly with the British beam system that reaches to Australia.

It is to be noted that its communications interests represent only a small fraction of the radio business in which the R.C.A. is engaged. Most of its revenues are from the production and distribution of radio receiving sets and parts and from the collection of patent royalties.

In this field it has also been repeatedly charged with being a monopoly, largely by reason of its extensive patent holdings.

While the communications experts of the corporation were arguing before the commission, a statement was distributed in Washington to the effect that President Coolidge has been petitioned by the Radio Protective Association, a group of about a dozen independent set and tube manufacturers, to dissolve the R.C.A., and other companies affiliated with it in the so-called "radio trust." Oswald Schuetz, executive secretary, charged that the Attorney-General has failed to prosecute this alleged radio monopoly in spite of evidence of antitrust law violations presented by the association's counsel.

Theater Closing Forced by Union

SAN FRANCISCO, Sept. 26. (Ex-clusive)—The Curran Theater, legitimate stage playhouse, will close its doors to the public next Sunday and, presumably, every Sunday thereafter because of demands of the local musicians' union that its members get one night a week off, it was announced today.

Homer Curran, manager of the theater, said: "Keeping the house dark Sunday will work a certain hardship on members of the company as they will lose a day's pay, but I felt there was no other alternative in the circumstances."

HUNGER CONQUERS
HOMESICK BROTHERS

ALGONQUIN (Ill.) Sept. 26. (UP) Hebert and Joseph Spring, school boys, who disappeared from the Todd School at Woodstock, Ill., yesterday walked into the police station here this afternoon, cold and hungry. They apparently had wandered away from school to go home to Chicago and had been trudging along for twenty-four hours.

LEADERSHIP— won in a year!

Now Every Minute Sees Another GENERAL ELECTRIC REFRIGERATOR Placed In Some American Home

THE GENERAL ELECTRIC REFRIGERATOR was first announced just fifteen months ago. At that time, these refrigerators were being placed in homes at the rate of one a day. Now they are going into American homes at the impressive rate of one a minute, every day.

A Nation-Wide Organization Has Been Created

At the beginning of 1927, fourteen dealers handled the General Electric Refrigerator. Today there are more than 5500. Where only 70 people were engaged, today there are 11,500.

This swift but sound growth is a tribute to the newest product of the Research Laboratories of General Electric—a

complete justification for the fifteen years of research and experiment which were put into the development of this "years ahead" refrigerator.

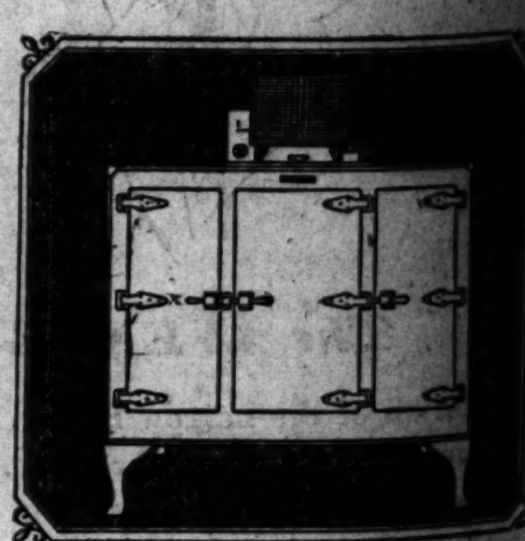

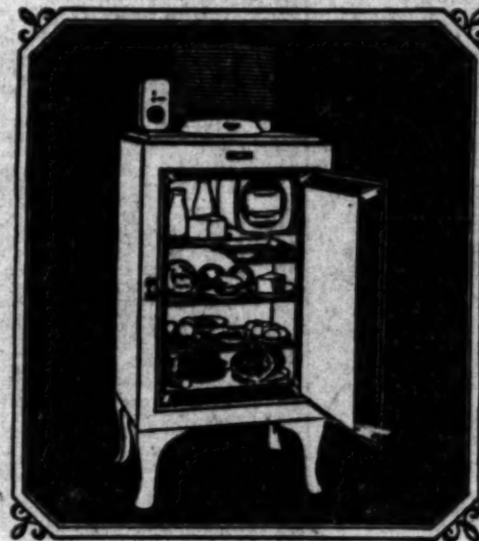

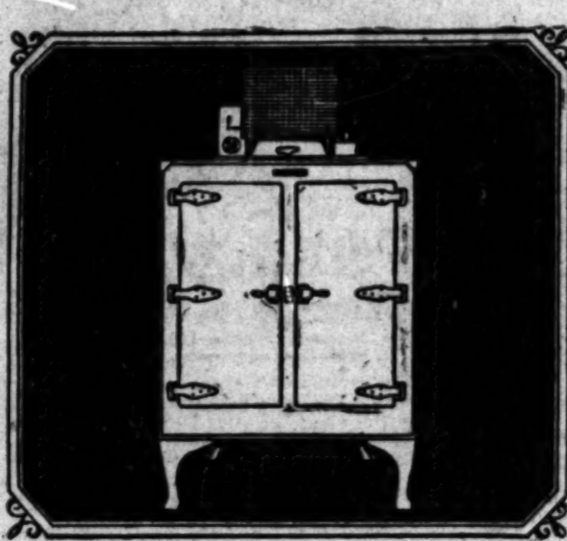

Public Preference Has Been Won

The miracle of general public acceptance, all in a year's time, has come to pass—an acceptance which is keeping nine factories running at top speed.

Thanks are due to the foresight of the electric light and power men of the nation who have brought electric service to eighteen million homes. They have made it possible for General Electric Refrigerators, in ever-growing numbers, to aid in reducing the annual seven hundred million dollar loss in food spoilage in American homes.

GENERAL ELECTRIC Refrigerator

"Makes it Safe to Be Hungry"

The General Electric Refrigerator is entirely different from all others. All its mechanism is on top, in an hermetically sealed steel casing.

These refrigerators are unusually quiet, and they never need oiling. They are made and guaranteed by General Electric.

PASTOR CALLED TO RADIO POST

Dr. Cadman of Brooklyn First So Honored

New Hook-up Will Carry Sermons Over World

Salary for Position Will Be \$25,000 Yearly

NEW YORK, Sept. 26. (P)—Dr. S. Parkes Cadman, president of the Federal Council of Churches of Christ in America, has been invited to become the world's first radio pastor.

He has long been known to millions of radio fans through his meetings at the Bedford branch of the Y.M.C.A. in Brooklyn, broadcast every Sunday afternoon. A new hook-up planned by the National Broadcasting Company will carry his voice not only all over the United States, but to other countries through short-wave stations.

Dr. Cadman is at present pastor of the Central Congregational Church of Brooklyn, but the new position will require his retirement from that post, says Frank S. Goodman, secretary of the radio committee of the Federal Council of Churches, who made the announcement.

Dr. Cadman is due home from Europe October 3, at which time it is expected he will announce his decision. Unofficially it was said his salary will be around \$25,000 a year.

The sermons will be nonsectarian, funds being raised by a committee composed of Protestants, Catholics and Jews. Dr. Cadman also will continue his custom of answering questions propounded by his radio congregation.

Polish Quake Creates Panic

WARSAW (Poland) Sept. 26. (P)—Two slight earthquake shocks, which created a panic for a short time, were felt in the districts of Buczac and Kopyczynce yesterday. The shocks were preceded by subterranean rumbling.

The quakes were local in character and no damage was caused. Earthquakes are rarely felt in Poland.

STATE WINS ROAD FIGHT IN ARIZONA

Court Declares Highway Commission Has Right to Spend Funds

PHOENIX, Sept. 26. (P)—Holding that funds appropriated for road construction purposes are under the jurisdiction of the State Highway Commission, appointed and qualified under the provisions of the highway code, the Maricopa County Superior Court today handed down a decision of an injunction suit which sought to restrain the highway department from building approximately sixty miles of the Casa Grande-Gila Bend Highway along the route proposed by the State engineer.

The suit was brought some months ago by residents of Maricopa station, when, working within an appropriation of \$150,000 made by the Eighth Legislature for the Casa Grande-Gila Bend road, the engineering department laid out a direct route between the two points, passing some distance from Maricopa station, as well as a longer route including Maricopa.

The two plans were submitted to the Highway Commission, which directed the State engineer to proceed with the building of the shorter road, which was estimated to cost \$148,000, while the longer highway, it is stated, would cost \$250,000.

Maricopa residents protested the decision of the commission and brought suit to stop the work.

Oakland Rail Plan Opposed

WASHINGTON, Sept. 26. (P)—The Interstate Commerce Commission was advised today to refuse the Western Pacific Railroad authority which it has sought to take control of the Union Belt Railway, operating a short line of road entirely within the city of Oakland, Cal.

Ralph R. Molster, examiner assigned to investigate the project, reported that the belt line and shippers along it adequately are served by the Southern Pacific and recommended that the commission reject the Western Pacific plan. The report must be considered further by the commission.

BLACKMER ACTS IN TAXES CASE

Fugitive Teapot Witness Asks Rehearing

Indicted Magnate Blocks Government Suit

Property Impounded Over Income Payments

WASHINGTON, Sept. 26. (P)—H. M. Blackmer, missing witness in the Teapot Dome oil case, today petitioned the board of tax appeals for a redetermination of taxes assessed by the government amounting to \$8,488,935.

The taxes were assessed as income taxes for the years 1916-17-18-20-21-22-23.

Blackmer, who is in Europe and who failed to appear as a witness in the Teapot Dome case in which he was summoned to testify concerning his connection with Continental Trading Company, was indicted several months ago in Denver in connection with his income tax returns.

Lien was placed on his property in this country to assure collection of the taxes. No suit to collect would be filed until after the end of next month and the filing of the petition for redetermination of the taxes blocks any attempt by the government to sue until his petition is acted on.

China Calls on Salt Mines to Bolster Credit

SHANGHAI, Sept. 26. (P)—In an effort to maintain China's credit, the Nationalist government has ordered China's twenty-two salt-producing districts to contribute annually to the Ministry of Finance total of \$10,000,000 Mexican.

The money will be used for payment of China's foreign loans from British, Japanese and French private interests which were secured by the salt revenues.

T. V. Soony, Finance Minister, explained that during the final year of the Nationalist drive on Peking the salt revenues decreased because of war-time disturbances.

PLEA MADE FOR GANNA AT CAPITAL

Customs Commissioners Hear Singer's Attorney on Goods Held for Duty

WASHINGTON, Sept. 26. (P)—The appeal of Mme. Ganna Walaska from a ruling of the collector of the Port of New York that she must pay duty on jewel and clothing brought from Paris was heard today by Customs Commissioner Camp and Deputy Commissioner Dow.

The appeal was presented by H. D. Bulkeley of New York, counsel for Mme. Walaska. Commissioner Camp promised an early decision. If the decision is against his client Bulkeley said she will export the goods.

Bulkeley maintained Mme. Walaska's permanent home is in Paris and that it has been her intention from the time of her marriage to Harold F. McCormick to reside there.

Flood Ravages Mexican Coast

MEXICO CITY, Sept. 26. (P)—Serious flood conditions and extensive storm damage have been reported from a wide territory on the west coast of Mexico. The states of Jalisco and Sinaloa, as well as the penal colony on the Mar de Cortez, figure in the reports.

Newspaper dispatches from Mazatlan in Sinaloa say that part of the city was inundated, that houses collapsed and all traffic had been suspended. The Huasteca River flooded the El Tajio mine.

RIECKS-COATES JURY DISMISSED

New Trial Set for Officers at Stockton

Eight for Conviction of Pair for Bribery

Second Hearing of Case Will be October 23

STOCKTON, Sept. 26. (P)—The RiECKS-Coates jury was dismissed at 12:15 p.m. today after deliberating since 3:18 p.m. yesterday. They stood eight to four for conviction all through twelve ballots.

Convening at 9:15 o'clock this morning after a night's rest under guard in a local hotel, the jury took up its deliberations on the guilt or innocence of the officers.

Twice during the morning the court was stirred with the hope that the deadlock had been broken; however, each time the jury wished merely to return to the courtroom for instructions from the bench.

According to the statement of one of the jurors, one woman and three men voted on the first ballot for acquittal of the officials and during the ensuing twelve hours of arguing, the four stood adamant while the majority eight also cast their votes consistently for conviction.

Date for retrial of the bribe charges was placed by Judge Buck this afternoon for October 23 at 10 a.m. Dist. Atty. Darragh urged that the date be set later on the calendar but the jurist held that the defendants must be given advantage of the thirty-day retrial law.

James Y. Coates, chairman of the Board of Supervisors, is listed to go to trial October 30 on separate counts for accepting \$5000 bribe money in three installments of \$200 each. This date will be postponed, Judge Buck indicated.

Surface Smoothness

is a most important quality for street pavement. To remain smooth under heavy traffic, the pavement must have strength.

Portland cement concrete pavements have the strength needed to stay smooth as built, winter or summer.

POLICE ACCUSED IN BRIBE STORY

Twenty-four Philadelphia
Officers in Court
Several Confess to Taking
Protection Money
More Arrests Promised in
Graft Campaign

PHILADELPHIA, Sept. 26. (P)—Twenty-four civilian-clothed policemen, charged with extortion, bribery and conspiracy, marched two by two into Judge Lewis's court today to hear a former operator of a still describe how he had paid them nearly \$1 a week on each gallon of liquor he turned out under their asserted protection. All were stripped of their badges and suspended from duty after their arrest last night.

At the conclusion of the hearing, Capt. Charles Cohen, until last night commander of the Twentieth and Berks streets police station, was held in \$15,000 bond, while the others were required to furnish from \$1,000 to \$2,500 each. Several confessed that they accepted bribes.

THIRTY-FOUR HELD

The arrests brought the number of policemen taken into custody since the start on August 20 of the grand-jury investigation to thirty-four—three captains, seven sergeants, ten detectives and fourteen patrolmen.

"And the end is not yet," Dist. Atty. Monaghan, who is conducting the inquiry, declared tonight. "There will be more arrests."

Praising the campaign of Dist. Atty. Monaghan and asserting that he is "four-square" behind the efforts to get at the bottom of asserted police corruption by bootleggers, Mayor Mackey told the women's Philadelphia committee of law enforcement today that the law must be obeyed, "regardless of whom it hits."

CONSUMERS BLAMED

He laid the blame for bribery of the police at the door of buyers of bootleg liquor and denounced particularly men of "social distinction and importance" who bought liquor from Joel D. Kerper, "society bootlegger," who pleaded guilty after a number of prominent men had testified in Federal Court that they had made purchases from him. Kerper was released in \$10,000 bail yesterday and will be sentenced Friday.

"The real trouble with law enforcement," said the Mayor, "is the apathy of the self-styled respectable citizens."

BUS HEARING TO REOPEN

SAN FRANCISCO, Sept. 26. (P)—The State Railroad Commission today ordered reopened the hearing on an application of T. C. Gillespie to establish a direct through bus line from Pasadena to Hollywood and Ocean Park.

PARK CHIEF LAUDS FIRE STRATAGEM

Advantage of Preparing
for Forest Blazes Told by
Sequoia Official

WASHINGTON, Sept. 26. (Exclusive)—"The advantages of preparing in advance to meet the emergencies that may arise in the wilderness," said Col. John R. White, superintendent of Sequoia National Park, California, at the Department of the Interior today, "was never better illustrated than when forest fires broke out last August in the wild region adjoining Sequoia park, burned expensive forest areas, including many lumber mills, and swept down on the park itself."

"For two years previous to this emergency Congress had provided \$10,000 each year to be used in preparing against just such an event. We have provided ourselves with the tools and materials which were needed to meet such an emergency. They were securely cached at strategic points. We were able to employ fire fighters and put them immediately on the battle line with the right materials at hand. We were able to meet the fire at the boundary of the park and there fight it effectively."

"The fire crossed the park boundary on a front twelve miles wide in the neighborhood of the south fork of the Kaweah River. The Clough Cove ranger station was near this point and Chief Ranger Cook was in command. He mustered a force of seventy-four men and fought a wall of fire for the better part of a week until he got it under control. The fire penetrated only a few hundred yards into the park. If, however, it had ever got into our forests and beyond control, it is impossible to estimate what might have been the damage that would have been done."

New Zeppelin Flies in Test

FRIDRICHSHAFEN (Germany), Sept. 26. (P)—The Graf Zeppelin made its third test flight this afternoon, cruising above Lake Constance while its crew tried out the wireless equipment of the dirigible. Wave lengths of 800, 900 and 1,800 meters were used. The longest is intended for crisscross messages.

Dr. Hugo Eckener watched the flight from the ground. The ship was navigated by Lieutenant-Commander Flemming. There were twenty-five guests aboard, made up of officials and aeronautical experts.

BATHO MADE BARONET
LONDON, Sept. 26. (P)—Sir Charles Batho, the retiring Lord Mayor of London, has been made a baronet.

Quality Saves 210 Paint Dollars

NOTE the cost chart!
At best, cheap-per-gallon paint can save less than four dollars on the first cost of painting an average house. For that four dollar difference, Quality Paint will save \$210.24 on the cost of five years' paint protection. 50 times more than that false gain!

Less than four dollars more for the job is a small cost for Quality Paint that outlasts cheap-per-gallon paint two and a half to one!

Besides, only Quality Paint such as Patton's Sun-Proof Paint gives your property a moisture-proof armor against decay and depreciation—saves repair bills—insures your investment.

Forget price-per-gallon! It means nothing! Year to year cost is the real cost! Quality is the only economy.

WHATEVER you need — Glass, Paint, Varnish, Lacquer or Brushes — the Pittsburgh Plate Glass Company, with its international distribution, has a product that exactly fills your requirements. Sold by quality dealers — used by exacting painters.

What Cost To Paint This House?

1st Grade Paint	2nd Grade Paint
Average Price per Gallon \$3.91	Average Price per Gallon \$2.70
Average Coverage per Gallon 40 sq. ft.	Average Coverage per Gallon 30 sq. ft.
Required for 500 sq. ft. house (500-40) Gallons 12½	Required for 500 sq. ft. house (500-30) Gallons 16⅔
12½ x 3.91 = \$48.87	16⅔ x 2.70 = \$45.00
Labor—estimated at 1/2 day of 10¢ per hour = \$12.50	Labor—estimated at 1/2 day of 10¢ per hour = \$12.50
Total \$61.37	Total \$57.50

But—how long will each job last?

1st Grade Paint	2nd Grade Paint
Quality Paint lasts 5 Years	Quality Paint lasts 2 Years
1 x \$61.37 = \$61.37	2 x \$57.50 = \$115.00
\$356.85	\$146.61
\$210.24	\$146.61

Forget "gallons"—figure in years of economy and protection!

Navy's New Vought Planes Join United States Battle Fleet at Harbor

Thirty-one New Vought "Corsair" Observation Planes, Perfected by Navy Aeronautical Engineers After Five Years of Study and Experiment, joined their respective ships of the battleship division at San Pedro yesterday, increasing the effectiveness of the United States Navy to a degree which even naval experts are not yet capable of estimating. The new "eyes of the fleet" are two-seaters with a service speed in excess of 150 miles an hour, and are constructed to attain their greatest efficiency at heights which practically incapacitate other types of planes. In the photo at left (above) one of the Voughts is pictured as it landed after initial maneuvers; middle, Admiral Commander-in-Chief U. S. Battle Fleet, and Rear-Admiral Reeves, commanding Battle Fleet aircraft squadron, observing performances of new planes, and at right, the U.S.S. New Mexico taking aboard a Vought. (P. & A. photo.)

It's Not All Play for Army Football Captain, Cadet Bud Sprague, as this photo indicates. He is here shown standing inspection during dress parade, and anyone who has stood inspection will vouch for the fact that it is anything but fun. (P. & A. photo.)

Not Mad or Anything—Mabel Boll, "queen of diamonds," denied spat with Bert Acosta, pilot, when she arrived recently at New York from Europe. (P. & A. photo.)

An Unusual Photograph of M. Kalinin, whose word in soviet Russia is the equivalent of a royal command in the days of the Romanoffs, is the one presented above. It shows him on his farm at Verkhaja with his mother and son. (P. & A. photo.)

HIGH LIGHTS IN HISTORY

1144

The Story of American Industry. America in the "Homespun Age"—Part 4.

by J. CARROLL MANSFIELD

MOST COLONIAL HOMES WERE LIGHTED BY THE FLICKERING GLEAM OF TALLOW CANDLES. CANDLE DIPPING WAS ONE OF THE MYRIAD TASKS OF THE COLONIAL HOUSEWIFE. A NUMBER OF STRINGS, SUSPENDED FROM A STICK, WERE DIPPED INTO A POT OF MELTED TALLOW. THE STICK WAS PLACED ON A RACK AND THE TALLOW, AS IT COOLED, HARDENED AROUND THE STRINGS.

THE DIPPING WAS REPEATED AGAIN AND AGAIN UNTIL THE CANDLES REACHED THE REQUIRED THICKNESS. THIS LABORIOUS METHOD WAS ELIMINATED BY THE INVENTION OF THE CANDLE MOLD, INTO WHICH THE HOT TALLOW WAS POURED.

BEHIND THE HOUSE STOOD A BARREL WHICH WAS KEPT FILLED WITH WOOD ASHES FROM THE HEARTH. WATER WAS POURED INTO THE BARREL AND, AS IT SOAKED THROUGH, IT EXTRACTED LYE FROM THE ASHES. THIS PROCESS WAS CALLED "LEACHING".

MANY FARMERS IN THE COLONIAL PERIOD MADE LARGE QUANTITIES OF SOAP. THE SOAP WAS MADE BY BOILING TALLOW WITH LYE TO MAKE SOAP FOR THE DOMESTIC USES OF THE FARM.

Mt. Lassen, California's Picturesque Active Volcano, the only active volcano in the United States, is caught by the cameraman in this photo lately belching smoke. Lassen's glaciers never entirely yield to the summer sun. (P. & A. photo.)

Off to Meet Gene, Polly Lauder, fiancée of the former heavyweight boxing champion, sailed aboard the S.S. Saturnia for Europe a few days ago. (P. & A. photo.)

On the Eve of His Departure for Australia, Capt. Sir George Whitehead will make attempt to reach the South Pole in his plane, Capt. Sir George Whitehead revealed his engagement to Miss Suzanne Bennett, New York actress, with whom he is shown above. (P. & A. photo.)

ANY FARMERS MANUFACTURED
LARGE QUANTITIES TO SELL. SOME OF THE
LYE WAS BOILED WITH GREASE IN A BIG KETTLE
TO MAKE SOAP FOR THE HOUSEHOLD WARRING.

(Ill.) Sept. 26. (P)—William Malkey Black, 24 years of age, of St. Louis, was killed by the propeller of the motor of a dirigible airship which a ground crew was attempting to land here today.

ford verified Barton's explanation that a \$5000 check made out to him had been for the advertising concern with which he is connected.

PRESIDENT HUGS JOURNALISTS

New Mexican Leader Cordial In His First Reception of News Correspondents

MEXICO CITY, Sept. 26. (AP)—All American newspaper correspondents in Mexico City were hugged twice today by the provisional President-elect, and they returned the embrace. As each reporter called to pay his respects to Emilio Portes Gil he was so greeted and a little later so was sped on his homeward way.

It was merely the proper etiquette for the occasion, but, nevertheless, was a novelty to most of the newspaper men because they have been able only rarely to see President Calles, much less hug him. The abrazo or embrace is conventional between intimates in Mexico.

Court Upholds Sale of "Star" in Kansas City

JEFFERSON CITY (Mo.) Sept. 26. (AP)—Sale of the Kansas City Star and Times, two years ago to the Kansas City Star Company, headed by the late Irvin Kirkwood and associates on the newspapers, for \$11,000,000 was upheld today by the Missouri Supreme Court, en banc.

The court affirmed judgment of Jackson County Circuit Court in sustaining a demurrer to a suit brought by Walter S. Dickey of Kansas City, editor and owner of the Kansas City Post and Journal-Post, to have the sale set aside.

WAILING WALL ROW UNABATED

Jerusalem Still Upset Over Yom Kippur Clash

Demonstrations Balked by Palestine Council

Fete for British Naval Men Called Off as Protest

JERUSALEM, Sept. 26. (Jewish Telegraphic Agency)—Excitement over the incident at the wailing wall during Yom Kippur services, when the Jerusalem police interfered with worshippers who resisted the removal of a screen separating the men and women, continued today in Jerusalem, Haifa and Tel Aviv.

Public demonstrations to voice a protest against the action of the police were planned but were prevented on the advice of the National Council of Palestine Jews.

A reception planned by the Tel Aviv municipality in honor of the officers of the British warships Eagle, Royal Oak and Valiant, anchored in Jaffa Harbor, was canceled as a protest.

A delegation conferred with H. G. Lask, acting high commissioner, in the presence of the director of police and members of the government. The delegation asked that those responsible for the action against the worshippers be disciplined and that a solution of the wailing wall problem be reached. The government members promised to reply to the presentations shortly.

The Jerusalem district commissioner, in explanation of the order issued by him, said that if the screen had not been removed the excited Moslem neighbors would have stoned the worshippers.

A statement issued by the Zionist executive here denied that any persons were injured in the clash. The Zionist executive intends to present the matter to the League of Nations.

THE SALEM
Early American secretary in antique mahogany. Double dynamic loudspeaker, power amplifier, juke, "250" HEAVY DUTY tubes, standard 10 inch compartment. A Senior model.
Price, without tubes... \$575
Bookcase top, extra... \$150

NEVER before has it been possible to hear the deep, moving tones of the violas, cellos and bass viols. Now Splitdorf has pioneered in bringing them to you.

The set purchased "yesterday"—dynamic speaker and all—fails to reproduce their rich tones and makes them sound as though from muted instruments.

Dynamic speakers cannot transmit through tubes that lack handling power. The present-day Splitdorf, with its "250" HEAVY DUTY tube, now makes that power available.

The new Splitdorf models, now being placed on the market, deliver seven times more power to their dynamic speakers than "yesterday's" 171-equipped radio sets.

The Senior Splitdorf models embody

two oversized dynamic speakers and two HEAVY DUTY tubes. Fourteen times more power! You owe yourself the treat of listening to the Splitdorf—side by side with your own set. The remarkable difference in tone will amaze you.

Take steps today to make this test. If you wish, your dealer will afford you the privilege of making a comparative test in your own home. Only your own ears can make you conscious of the tremendous advance the Splitdorf offers.

See your dealer. Make arrangements now to hear this new, yet permanent, development in radio—the deepest musical enjoyment you have ever known.

BORAH RIDDLES SMITH CHARGES

Accusation Aimed at Hoover

**Accusation Aimed at Hoover
Draws Return Fire**

**Governor Declared Silent on
Tammany Thefts**

**"Betrayers" of Republican
Party Denounced**

KANSAS CITY, Sept. 26. (AP)—Discussing Gov. Smith's recent attack on Herbert Hoover because of his asserted association with those who brought corruption into the Republican party, Senator Borah of Idaho tonight reminded Gov. Smith that he "has been associated with Tammany Hall for more than twenty years and in that time Tammany stole \$1,000,000,000 from the people of New York."

"We will take these candidates on their own records and not on

they have associated. No man has more hatred and contempt than I have for those miserable creatures who crawled into the protection of the Republican party and betrayed its honor. They represent their defilements themselves. The majority of the people of the United States recognized this and elected President Coolidge four years ago. This majority party has chosen Herbert Hoover as its candidate.

"After the Democratic party at Houston had written a pledge to sustain the Constitution, Tammany

to the people of the country, which hurried the prohibition issue into the campaign and on this issue the fight is not between the Republican party and the Democratic party, but a contest between law and order and the Constitution on one side and Tammany Hall and its allied influences on the other."

In referring to the charge that Hoover had beaten down the price of wheat during the war, Senator Borah contended that, on the contrary, he had kept the prices up.

"This," Borah asserted, "is not my opinion. It is the record. They charge that Hoover fixed the price of wheat in 1917 and beat down prices of farm products after the armistice. The record in Washington does not sustain them. In 1917 Congress fixed a price of \$3 on the 1918 wheat crop. There was no price fixed for the 1917 crop. In the beginning of the World War,

American market in competition and the price of wheat went to \$3. They agreed on a purchasing agent, then, to buy their wheat. They controlled the shipping and in that measure the price. They set their price—\$1.80 in Europe or \$1.58 in the United States.

"It was Hoover who suggested to President Wilson that he would have to accept the price of the Allies—a price fixed by foreigners—I did not take some action. The President appointed a commission

Sanitation leaders—and this commission unanimously agreed on a price of \$2.20."

Group to Fight Smith Formed by Democrats

ST. LOUIS, Sept. 28. (P)—The assertion that "one and one-half

West and South have joined in an organized revolt and will vote for Hoover as a defense of the democracy in which they believe against a leadership in which they do not believe" was made today by Mr. D. Lightfoot, chairman of the National Democratic Constitutional Committee.

Mr. Lightfoot, who is a former member of the Democratic State Central Committee of Missouri, announced the establishment of a permanent headquarters here for anti-

**Hoover Inspects
Site of Building**

WASHINGTON, Sept. 28. (AP)—Herbert Hoover today inspected one of Washington's "grand canyons," a huge machine-made hole in the ground out of which soon will rise the new building of Congress.

Standing at the edge of the excavation, dug out this summer, he looked across the quarter-mile stretch where the white marble Commerce Building will take its place as the first in the future series of government buildings to line the Mall south of Pennsylvania avenue and east of the Washington Monument.

to Ban Politics

STAUNTON (Va.) Sept. 28. (AP) — A resolution declaring that it is "wise and expedient to exclude" from the pulpits discussion of phases of the present political campaign that "might commit the church to party political issue" was adopted today by the Baltimore Methodist conference. The Baltimore confer-

The resolution was introduced by Rev. Forest J. Prettyman of Baltimore and former chaplain of the United States Senate.

SUGAR MARKET

NEW YORK, Sept. 25. (P).—There was no change in the raw sugar market earlier today with spots quoted at 3.93 duty paid and there were no calls. It was believed that yesterday's business in story sugar and for prompt shipment aggregated 71,000 tons of Cuban, all to local refiners.

There was no improvement in the demand for refined sugar and prices were unchanged at 5.46 for San Francisco.

Future settled prices: approximate and 54,000 tons. December, 2.11; March, 2.10; May, 2.34; July, 2.33; September, 2.30.
